

During Term 3 we will begin our transition programme to support children moving onto Primary 1.

Children will join school playtime groups in the garden so they can meet other children who will be going to the same school. Please ensure your child is dressed for the weather – rain and shine!

The playtimes will be similar to those at school, helping children to become familiar with this. We will practise playground games, playing independently and having snack. We will also have time to talk about what happens in school, and spend time getting to know each other.

The timetable for these playtimes is shown below. The time for each group will be flexible, depending on weather. The groups will take place throughout the term when possible. On some occasions they may not take place due to other events or circumstances.
