CHOOSING SUBJECTS

What should I think about?

When you are thinking about what 5 subjects you should be choosing next year there are a number of factors you should take into account

- There are no option columns to begin with in the Senior School. Pupils in S4 and S5 make a free choice and the 5 columns are decided by a 'Best Fit' policy
- You should where possible continue with the subjects you studied in either S4 or S5 – continuity to the next level is the best option. There are occasions where picking up a new subject is desirable
- You should have researched college courses, University courses to see which subjects/levels are entry requirements for the coming Session 2018-2019 – remember these can change from year to year.
- You should look at recommended levels for courses within this booklet and talk to your class teacher regarding progression.
- If crashing a Higher eg RE, Modern Studies you should look at recommended subject requirements.
- Courses will commence June 2018 and it is important that you attend. Changes can be made in August
- Even if you are opting for the vocational college courses you must choose 5 subjects.

Duke of Edinburgh Award

WHAT IS THE COURSE ABOUT?

Gives all young people aged 14-24 the chance to develop skills for life and work, fulfil their potential and have a brighter future

WHAT IS THE RECOMMENDED ENTRY LEVEL?

There are no qualification barriers to this Award

WHAT IS THE COURSE DESIGN?

You can do programmes at three levels, which when completed, lead to a Bronze, Silver or Gold Duke of Edinburgh's Award.

You achieve your Award by completing a personal programme of activities in four sections (five if you're going for Gold) - Volunteering, Physical, Skills, Expedition and for Gold, a Residential.

You'll find yourself helping people or the community, getting fitter, developing skills, going on an expedition and taking part in a residential activity (Gold only).

The best bit is - you get to choose what you do!

HOW IS THIS SUBJECT ASSESSED?

Once you've completed your programme, you need to make sure:

- You've done all your sections for the minimum time required, for an average of an hour a week (or the required timescale for your expedition)
- You've uploaded all your evidence to eDofE - the best option for this is as jpegs so you can use them in your Achievement Pack
- Your Assessors have provided reports/comments on your activity, how you met your goals and how you have progressed, and you have added them into eDofE

Whether you've submitted each section for approval as you've gone along, or are submitting them all at the end, your Leader will check and approve them in eDofE. Once they've approved your final section they will then send it to your Licensed Organisation (LO) who will check everything is in order.

All being well you will be told that you've achieved your Award – congratulations!

National (4) Admin & IT

WHAT IS THE COURSE STRUCTURE?

There are 3 Units and an added value unit before Easter 2019.

WHAT IS THE RECOMMENDED ENTRY LEVEL?

There are no qualification barriers to this Award

WHAT IS THE COURSE DESIGN?

Unit 1 – Administrative Practices

The purpose of this Unit is to give learners a basic introduction to administration in the workplace. Learners will begin to appreciate key legislation affecting employees, key features of good customer care and the skills, qualities and attributes required of administrators. The Unit will also enable them to apply this basic understanding in carrying out a range of straightforward administrative tasks required for organising and supporting small-scale events.

Unit 2 – IT Solutions

The purpose of this Unit is to develop learners' basic skills in IT and organising and processing simple information in familiar administration-related contexts. Learners will use the following IT applications: word processing, spreadsheets and databases, to create and edit simple business documents. The Unit will allow emerging technologies to be incorporated so as to ensure that its content remains current and relevant.

Unit 3 – Communication

The purpose of this Unit is to enable learners to use IT for gathering and sharing simple information with others in familiar administration-related contexts. Learners will develop a basic understanding of what constitutes a reliable source of information and an ability to use appropriate methods for gathering information. They will also become able to communicate simple information in ways which show a basic awareness of its context, audience and purpose. The Unit will allow emerging technologies to be incorporated so as to ensure that its content remains current and relevant.

HOW IS THIS SUBJECT ASSESSED?

To achieve the National 4 Administration and IT Course, learners must pass all of the required Units, including the Added Value Unit.

National (4) Mathematics

WHAT IS THE COURSE STRUCTURE?

There are 3 Units and an Added Value Unit of a Maths Test

WHAT IS THE RECOMMENDED ENTRY LEVEL?

A Pass in National 3 Maths or Access Maths

WHAT IS THE COURSE DESIGN?

Unit 1 Expressions and Formulae

The general aim of this Unit is to develop skills linked to straightforward mathematical expressions and formulae. These include the manipulation of abstract terms, the simplification of expressions and the evaluation of formulae. The Outcomes cover aspects of algebra, geometry, statistics and reasoning.

Unit 2 Relationships

The general aim of this Unit is to develop skills linked to straightforward mathematical relationships. These include solving equations, understanding graphs and working with trigonometric ratios. The Outcomes cover aspects of algebra, geometry, trigonometry, statistics and reasoning.

Unit 3 Management of Marketing and Operations

The general aim of this Unit is to develop learners' numerical and information handling skills to solve straightforward, real-life problems involving number, money, time and measurement. As learners tackle real-life problems, they will decide what numeracy skills to use and how to apply these skills to an appropriate level of accuracy. Learners will also interpret graphical data and use their knowledge and understanding of probability to identify solutions to straightforward real-life problems involving money, time and measurement. Learners will use their solutions to make and explain decisions.

ADDED VALUE UNIT – MATHS TEST

This is the Added Value Unit of the National 4 Mathematics Course. The general aim of this Unit is to enable the learner to provide evidence of added value for the National 4 Mathematics Course through the successful completion of a test which will allow the learner to demonstrate breadth and challenge. Breadth and challenge will be demonstrated through the use and integration of mathematical ideas and strategies linked to straightforward mathematical expressions, formulae and relationships. This will include the application of algebraic, geometric, trigonometric, statistical and reasoning skills. Numerical skills underpin all aspects of the Course, and the ability to use these without the aid of a calculator will also be assessed.

HOW IS THIS SUBJECT ASSESSED?

To achieve the National 4 Mathematics Course, learners must pass all of the required Units, including the Added Value Unit.
