

Calling on all Primary & Secondary School aged Students

Help us visualise

THE FUTURE OF STEM

For your chance to win fantastic prizes, courtesy of the Tayside and Fife branch of the Institution of Civil Engineers.

Design a poster describing how science, technology, engineering and maths could change the world we live in.

Your poster should be submitted digitally by midnight 15/6/2020.

Posters will be displayed in an online gallery and the winners announced on International Women in Engineering Day on the 21/6/2020.

We look forward to hearing how you will help us shape the world!

Will we have holidays in space?

Will drones deliver our online shopping to our mobile location?

Will robots do our chores?

Will we bring back extinct animals?

Will robots build our bridges and buildings?

Will we manage to stop pollution?

Will we have implants giving us new skills embedded straight into our brains?

Will cars fly?

Posters should be submitted by an adult over the age of 18 with the following details for the entrant:

Name, age, school to SSENPUBLICEngagement@dundee.ac.uk
