

Primary 5 are going to be learning about Solids, Liquids and Gases.
Please work with your child to discuss this context within Science.

This information will be used to inform our planning.

Homework Discussion Help sheet

Science

Ask me about...	
Points you might want to discuss with your child	
What do I already know? (Talk about previous experiences/knowledge)	What do I want to find out about this topic?
Where will I find this information?	What would I like to do in class? e.g. paired work, experiments, trips
How would I like to showcase my learning? e.g. power point, flipchart, personal talk
