Dear Parents / Carers

STEM Week Volunteers

This term the pupils will be working on an exciting programme of Science, Technology, Engineering and Mathematics (STEM) experiences. As part of our cluster developments, Miss McVitie and Miss Wight have attended training from the Scottish Schools Education Research Centre (SSERC) in offering quality Science learning for our children. We hope that this training will be reflected in the exciting opportunities offered to our pupils during our upcoming STEM week in school.

Our STEM Week will run in both the School and Nursery from **Monday 11th March until Friday 15th March**, concluding with a showcase for parents on the afternoon of **Friday 22nd March** (further details of times and activities to follow soon).

In order to encourage Busby pupils to be successful in applying their skills and knowledge beyond the classroom and into the world of work, we are looking for parents and carers to support this initiative by sharing their experiences and job roles with the pupils during this celebration week. We would welcome anyone with a background or interest in STEM to come along and get involved.

Please indicate, by completing the tear off slip below, if you would be willing to share your knowledge or experience of Science, Technology, Engineering or Mathematics careers. If you require further information please contact the school to discuss with one of the STEM team. Thank-you to those parents who have volunteered already.

Visitors are also welcomed throughout the year to support learning in class, so if you are unable to volunteer during this week but would like to be involved, please let us know and we can arrange for another date.

Thank you for your continued support.

Yours sincerely,

Katie McVitie, Holly Wight and Sandra Curran

STEM Ambassadors.

STEM Week Volunteers

Please complete and return to the school office by Friday 25th January.

Child's Name and Class _____

I am willing to support STEM Week		Name:
