

S3 Design Unit

Research task

As part of this unit you have to research a theme that you find interesting about the design issues. The list below is just some suggestions but it could really be anything as long as you can find good images with bold shapes eg. Spike/spiral/geometric etc.

<p>Natural:</p> <p>Micro Marina Flora Grunge Adelia Insects Protection Aquarium Organic Nests Reptilian Iceberg Human body Weather</p> <p>Stone Nautical</p>	<p>cell structures, minute details etc. Sea life, aquatic, beach botanical forms, buds, seedheads, foliage petals, pods. decayed, distressed withered forms soft delicate or aggressive shells, exoskeletons fish, seafood, shellfish. skeletons, bones pods. homes created by animals, birds. snakes, lizards, scales fangs transparent or white sculptural forms, crystals, jagged skin, muscles Seasons, snowflakes icicles, raindrops, patterns from wind strata, textures, fossils, fishing, angling, boats and shipping, netting.</p>	<p>Man-made</p> <p>Moto Metropolis Robotics</p> <p>Geographical:</p> <p>Japan Sahara Spain America Australia</p> <p>Fantasy & Imagination</p> <p>The Tempest A Midsummer Night's Dream</p>	<p>automobiles, bikes, mechanisms cityscapes, architecture, geometry. clockwork, mechanisms, geometry</p> <p>Traditional Japanese culture, Geisha, modern high tech. African elements, rough clay or woven surfaces Flamenco, bullfighting Native American costume Aboriginal culture</p> <p>Shipwrecks, sea monsters, shells. forestry, botanical forms, insects magic, mythology</p>

You must then collect at least 12 good images There are 3 ways of doing this;

1. Use pinterest and set up a board under your own name (instructions below)
2. Collect images from the internet and paste them to a word/powerpoint document and then e-mail these to my school e-mail (JenkinsF1@st-lukes.e-renfrew.sch.uk) below is a suggestion of some designers to look for
3. Or same as above but print off the document and hand in to me.

Using Pinterest

The easiest and most efficient way to find good examples of designers work is through the website www.pinterest.com. Here is what you need to do;

1. Go online and use **google** to find the website **Pinterest**.
2. Register by **entering a valid e-mail address (not your school e-mail)** and give your name etc.
3. You will need to respond to the automatic e-mail from pinterest and that will allow you to start pinning etc.
4. On Pinterest search for **"mrjenkinsart"** you will need to **click on pinners** to find this and it will come up with a profile called "St Lukes Art & Design Mr Jenkins" with pictures of your design theme etc.
5. **Click on Follow** top right of the screen.
6. **Create a board and call it art research and start pinning** examples of interesting/ inspiring headpieces. It is quick and easy but spend some time looking around and try to get **at least 12 good images** that relate to your theme.

PS. It is a good idea to go into settings and turn off the e-mail notifications otherwise you will receive a lot of automatic e-mails from pinterest.

Also you must read the following acceptable use policy and terms of service

<http://about.pinterest.com/en/acceptable-use-policy> <http://about.pinterest.com/en/terms-service>
