

**Cross Arthurlie Primary School
Head Teacher's report
3rd December 2019**

Staffing

No changes in staffing this month.

Budget

The new Promethean boards have now been installed as has the new speaker in the hall... just in time for Christmas.

Given the size of the donation from the Coop I met with the pupil council to see if they had ideas for this money. They were very interested in buying some new resources to develop the playground. These ideas will be taken forward.

Nursery Build

The nursery building works are well underway now with the frame now in place. I have visited a number of nursery classes and will be visiting family centres to ensure that when the nursery opens we are able to provide a service which is in line with current best practice in Early Years.

Other News

We are getting ready for Christmas with the nativity and Christmas concert rehearsals well underway. We are very grateful to friends and family who supported the school for the Christmas fayre, and for their very generous donations for the foodbank. It took two cars to transport everything that was donated !

The choir performed on Sunday at Princes' Square and once again did the school proud. They will be performing again in the medical centre next Monday.
