Learning Together: Back to School Webinar Series

We all use creativity skills in our day to day life - but it can be difficult to define and explain to our children, and how do we develop these skills?

We're inviting parents to **join us and Education Scotland at 10am on Thursday 6th August to learn together with your child(ren) about Creativity.** The session will explore what creativity why it's important, and how we can develop it. Creativity isn't something you teach, it is something you practice!

In partnership with:

These sessions aim to help parents to support their child(ren)'s learning as they transition back to school - children are welcome to come too - there will be lots of kid friendly fun activities and creative tasks for them to take part in!

Visit <https://www.npfs.org.uk/2020/07/31/back-to-school-webinars/> for more information and to register for free

Learning Together: Back to School Webinar Series

Science is all around us in day to day life - although sometimes it can be hard to explain this when our children ask questions...

We're inviting parents to **join us and Aberdeen Science Centre for two sessions to learn together with your child(ren)**. Aimed at Primary Level (P2-P5), these interactive and hands-on sessions aim to help parents support your child(ren)'s learning - and there will be plenty of activities for children to join in with too. Ever wondered how to explain the chemistry that takes place in your own kitchen, or the forces that are in the world all around us?

Friday 7th August 2pm - Kitchen Chemistry, Aberdeen Science Centre (P2-P5)

Monday 10th August 2pm - 'Feel the Forces', Aberdeen Science Centre (P2-P5)

Learning Together: Back to School Webinar Series

As our children grow older, supporting them with STEM subjects can sometimes start to feel like more of a challenge. It's not about knowing all the answers, it's about knowing how to find them

We're inviting you to **join us and Glasgow Science Centre for three sessions to learn together with your child(ren)**. Aimed at Upper Primary and Secondary Level, these sessions will help inspire you, explore future career skills in STEM, and learn the processes and skills scientists use - it's not about knowing all the answers, it's about knowing how to find them. These sessions aim to help parents to support their child(ren)'s learning as they transition back to school - children and young people are invited to come as well to learn together!

Wednesday 5th August 10am - Astronomy - Inspiring Pupils in Science, Glasgow Science Centre (Upper Primary/Secondary)

Wednesday 12th August 10am - Inspire and Challenge: Developing Scientific Thinking, Glasgow Science Centre (Upper Primary/Secondary)

Wednesday 12th 2pm - STEM Futures - Skills for Careers in Science, Glasgow Science Centre (Secondary)
