

October 2016

Pupil Voice, Leadership and Groups

Dear Parent/ Carer

As you may be aware, we have now formed a range of Pupil Groups for the 2016/17 school year which will provide a platform for our children's voice and ideas about how to lead our school successfully. An inclusive, motivating culture for our school community is of huge importance and it is vital that our children are given meaningful opportunities to participate in the organisation and leadership of their own learning. A broad set of skills for life, learning and work can be developed through such experiences.

We have created an information leaflet for each of these groups in order to share their main purposes and structure; we hope that these will give you a more detailed insight into these groups. A few paper copies of these Pupil Group Leaflets will shortly be made available in our reception area, but you can view these on our website under the 'Latest News' section. Our Pupil Groups are in the process of updating, or for the new groups creating, their pages on our website and the leaflets will also be put there in due course.

I hope that this information proves informative and helpful,

Yours faithfully,

Rob Lawson
Acting Head Teacher
