Workshop Guide

My life, my way

This workshop by **Values Into Action Scotland** will show you how you get the most out of your support and have a great life!!!

Hopes and fears

Planning where you want to live is a big step! **Horizon Housing Association** will help you to think about taking your first steps towards reaching your goal.

What, where, with who and when?

Values Into Action Scotland have made packs to help you think about all of these questions. In this workshop we will show you how to use them and will give you one to take away.

Good neighbours, good friends!

Neighbours Inc.

Neighbours Inc. help lots of people to have great lives. They will share stories about what they have done to make a difference for the people that they work for.

In my own words.....

Housing Options

Housing Options Scotland help people get their dream home. In this workshop you will hear from and be able to talk to someone who has done this.
