

Christmas time is always a fun and wonderfully exciting time for young children. At IMFC, children learn about the meaning of Christmas through exploring Christian stories, images, music and poems enabling them to become more familiar with some beliefs Christian people have about God and Jesus.

As part of our religious and moral education, this year we are planning to support children as they learn about the importance of caring and sharing which will help to develop children's ability to show care and concern for others.

We hope you will participate in the reverse advent project!
