**For information or support please call in,
ring or drop us an email.**

East Renfrewshire Domestic Abuse Project is a domestic abuse project which is being hosted by Women's Aid South Lanarkshire, serving the communities across East Renfrewshire.

We aim to support and empower women, children and young people who are experiencing, or have experienced domestic abuse. We provide a range of needs led services including Refuge accommodation, support and information, which ensures improved outcomes.

Our services are based on listening to women, children, young people and our partner agencies.
