

Supporting your child with Maths

A selection of the best maths games, puzzles and activities on the internet to help you support your child to continue to develop their maths at home.

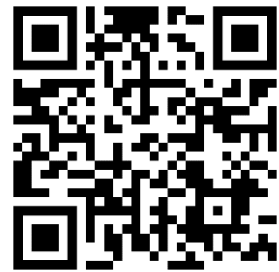

Play is a key component of developing speed and fluency in many areas of maths and numeracy. The games and activities in this pack will help your child develop their confidence in a fun, and competitive way.

Many of the websites have excellent content covering Early Level – Second Level, so do have a good look round them.

Early Level

Brilliant games to develop early maths skills, counting, shape, number bonds etc.

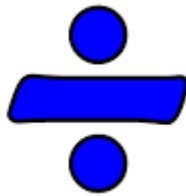

Excellent games, activities and tools to help young children consolidate their key concepts.

Excellent activities to develop the initial building blocks for mathematical thinking, reasoning and problem solving

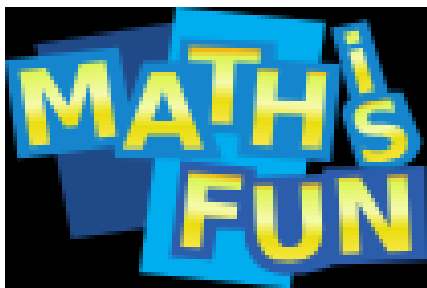

Amazing short videos all about numbers and how to use them, songs and games too.

First Level

Excellent games to develop speed and accuracy in numeracy and maths. Log in with your school details or play as a guest.

The perfect site to find out, and practice, everything you need about any maths concept.

Great ideas to help your child to build on their understanding of maths, and to see how their maths skills can be used in daily life.

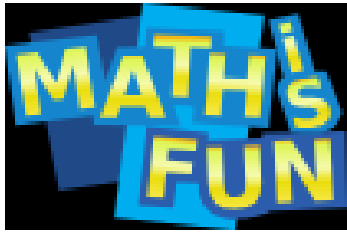

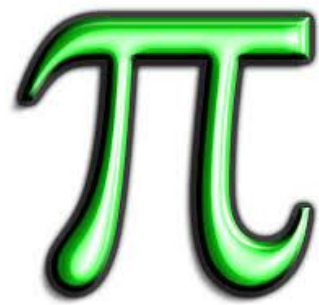

Math Playground

Give your Brain a Workout

Lots of great games to develop confidence in key First Level concepts.

Second Level

The perfect site to find out everything you need about any maths concept.

Brilliant activities and puzzles to develop mathematical thinking and problem solving skills.

TRANSUM
MATHEMATICS

Excellent games, puzzles and activities for developing confidence in every area of the curriculum. Check out the TablesMaster.

Loads of great FREE games to improve times tables and develop other areas of maths.

Brilliant 'how to' videos covering every area of maths. There's a great YouTube channel too.
