Using iPads to support dyslexic children and young people

Shirley Lawson, CALL Scotland

25th October 2021

Here are links to short videos of the things I covered in the training session:

iPads

➢ [Check Spelling can help to identify and correct spelling mistakes](#)

➢ [Making web pages easier to read with Safari Reader View](#)

Try this with the Roman website
http://www.primaryhomeworkhelp.co.uk/Romans.html

➢ [Speak Screen](#) and [Speak Selection](#) options for Text to Speech on iPad

➢ [Highlight content to help visual focus with tracking words and sentences](#)

➢ [Using Split screen to help with revision and writing](#)

➢ [Typing feedback reads aloud typed letters and words](#)

Speech recognition
➢ [Siri to support writing](#)

https://www.callscotland.org.uk/information/speech-recognition/

Office 365 tools: OneNote for organisation

https://www.callscotland.org.uk/blog/learning-tools-in-onenote/

[How to create a OneNote notebook](#)

Resources on our website:

➢ [Dyslexia Information](#) homepage

➢ [iPad apps for learners with dyslexia](#) (downloadable poster)

- ➤ [Using the iPad to support dyslexia](#) (downloadable poster)

- ➤ [Android accessibility and other information](#)

- ➤ [Chromebooks](#)

Please get in touch if you have any questions!
