

Keeping Safe Online

As children get older and start to use computers and devices more regularly it is important that we give them the skills to support them to safely use these online. In school as part of our digital technologies and Health and Wellbeing programmes we teach the pupils how to be safe online. Our Campus Police Officer supports us with sharing these key messages by talking to the pupils about the importance of keeping safe online and being kind to others.

Please find below some resources to support families at home to ensure if children are online they are being protected from harmful content and keeping safe.

Scottish Government Parent Club's Guide to online safety
