

The One Show / Ordnance Survey Limited

We are looking for something visual, original and eye catching for our judging panel....

Now we want you to turn your hand to designing a map symbol, or several map symbols! We're looking for your creative ideas in the following areas:

- 1) Vineyard**
- 2) Skate Park**
- 3) Caves**
- 4) Toilet**
- 5) Art Gallery**
- 6) Electric Car Charging Point**
- 7) Climbing Centre**
- 8) Solar Farm**
- 9) Kite Surfing**
- 10) Ice Rink**

Tips from our cartographic designers

The symbols will be forming part of a set, so they will need to work alongside the [current symbols](#).

When printed, the map symbols on our OS Explorer maps are roughly 5 mm, so it's important that they are legible at this size.

The symbols will be shown in a single, solid colour when they appear on the maps, so the designs can't rely on lots of colour.

Resemblance or convention – most of our map symbols are pictorial and either look like the feature they're depicting or use a well-known convention.

Try to make your design clear and easy to understand. They should require little or no interpretation and should be understood quickly. Avoid causing confusion to the map user.
