INTRODUCTION

Dear Pupil

Making the right course choices in S5 and S6 is a very important part of your educational progress. The choices that you make at these times are crucial to your educational future and your possible career thereafter. It is vitally important therefore that you take the option choice process seriously and that you give it your full attention and commitment.

It is important that your course choices are based on full and accurate information. This document is a starting point and contains details of each of the courses on offer. You should read it carefully; noting also that the most up to date subject information can be found on the SQA website: www.sqa.org.uk.

You should also discuss your course choices with your family and friends as this will give you every opportunity to think through your decisions. You will of course receive advice and support from staff in the school. You will have a formal meeting with your Pupil Support Teacher but you should also take the opportunity to talk to your teachers about your subject choices. In addition you will be able to access careers advice should you require it.

My own advice would be to select your strongest subjects to progress to next year. Your performance now helps indicate the subjects in which you are most likely to excel.

The forthcoming course choices are vitally important to your future, think carefully before you make any decisions and remember if you have any concerns ask for advice.

Mr. S. Clark

Head Teacher

S5 Options Arrangements

All students entering fifth year must

- start by identifying their five strongest subjects from their S4 prelims for progression to S5;
- choose English at the appropriate level;
- if pupils do not secure an A – C pass in Science or Maths prelims they will not be able to progress to the next level in those subjects;
- choose four other subjects that they are currently studying in S4; and
- have a full 33 period timetable.

Considering Leaving School?

You may leave at the end of May 2025 if you will reach the age of sixteen on or before 30th September 2025.

You may leave at Christmas 2025 if you will reach the age of sixteen between 1st October 2025 and 28th February 2026.

If you are considering leaving school, it is crucial that you have an interview with the Careers Adviser. You should also be discussing your plans with your Pupil Support Teacher and researching your personal areas of interest. A useful website is www.myworldofwork.co.uk

S6 Options Arrangements

All pupils returning for a sixth year must choose four or more curricular subjects in the S6 options process.

To enrich the S6 experience, all pupils will be offered the opportunity to participate in our Community Involvement Programme or other elective course (see Appendix 1 for further details).

Where pupils have secured five passes in S5, there will be the option to modify their curriculum in August to comprise

- three or more curricular subjects; and
- the Community Involvement Programme or other elective course (see Appendix 1 for further details).

There is also an extensive Vocational Programme available at this stage. For many pupils this adds relevant value to their curriculum in S6 and for some pupils it is also an appropriate choice for S5.

Pupils should discuss their option choices fully with their Pupil Support Teacher and carry out thorough research into their post school destinations.

In Sixth Year, students are expected to take greater responsibility for their learning and use their non-class time profitably. Making the best use of this time can be quite complex and involves careful advance planning and disciplined working. If you think you will find managing your subjects difficult, ask your Pupil Support Teacher for help.

Higher Education

Universities are keen to encourage applicants to pursue their studies to a more advanced level during their sixth year of school. Students who meet or exceed the minimum university entrance requirements after Fifth Year are recommended to study at least one (and preferably more) subject at Advanced Higher level.

However, it is not always advisable for students who have not met the minimum university entrance requirements to take Advanced Highers. Universities will continue to look for breadth of study across four or more subjects; it is, therefore, vital to select more Highers in these circumstances. For example, if a course has a minimum entrance requirement of BBBB and a student achieves AACC or BBCC at Higher, taking two Advanced Highers in the subjects in which the As or Bs have been gained will not help the applicant reach the minimum requirement. Pupils should instead concentrate on improving their qualifications across the broad range of subjects, as opposed to specialising in the areas in which they have already performed well. It is generally not advisable to repeat subjects unless a clear plan is in place for information.

NB: If you are considering applying to university, particularly for courses such as Medicine, Veterinary Medicine, Dentistry, Physiotherapy and Pharmacy you are advised to consult the university website and/or telephone the admissions officer, as the entrance requirements can change from year to year, however, studying at Advanced Higher will be compulsory.

Choosing Subjects

When pupils chose their subjects at the end of second year, they were advised to maintain breadth across subject groups. This time, pupils should be thinking more selectively about which subjects to take.

Consideration should be given to the following factors:

- Choose the subjects that you are most likely to pass at the next level and with the highest grade - your current performance provides the best starting point to identify these subjects.
- Choose subjects that are essential for your chosen career area/ university or college course
- Keep a balanced range of subjects if you are still unsure of a career area

In S4 pupils studied eight subjects, whereas in S5 you will be studying five. Pupils should research entry requirements for Higher Education, Further Education, training courses or careers as appropriate. The subjects they select for next year should reflect these requirements.

Each subject overview states 'Pupil Eligibility'. This is the suggested entry requirement for that subject and pupils should be aware of this information when making their choices. This is particularly important for pupils considering taking a 'crash' Higher. This should only be considered in S6 where there is a degree of flexibility in the timetable to allow for additional independent study in the new subject area. In order to have an automatic right to a place in a Higher class, a pass in the N5 prelim is required.

Pupils and parents should note, however, that whilst we offer a broad range of courses both within school and through the Vocational Programme; if there are not sufficient numbers of pupils choosing a subject, the course may not run.

Where Can You Get Additional Advice When Choosing Subjects?

Pupil Support

Your Pupil Support Teacher will be able to advise you about the balance of the subjects you are considering, and their appropriateness in the light of your progress, over the past two years and any career ideas you may already have.

Subject Teacher

The teachers of the subjects you are studying now will be able to tell you whether you have a realistic chance of success if you take that subject to a more advanced level. Ask them!

If you are thinking of starting a new subject be sure you really understand what will be involved - how much practical work, how much written work, how much homework - the best person to ask is the Principal Teacher of that department, but always check the 'Pupil Eligibility' in the first instance.

Careers Interviews

Pupils are able to access individual support from our SDS (Skills Development Scotland) Careers Adviser. However it is important that all pupils take responsibility to do initial personal research on the SDS website My World of Work (www.myworldofwork.co.uk). All pupils should register on the website as a way to inform and support their future plans then ask for an interview via their Pupil Support teacher or arrange an appointment directly with the careers advisor.

Other sources

The main source of information on Further and Higher Education courses is on www.planitplus.net. This provides details of courses in schools and colleges, as well as full documentation on courses available at Universities and Colleges. Young people leaving school who have not been able to find suitable work, training or a place at college should register with their local Skills Development Scotland Centre where they can access help and support in their job search.

School Website and Twitter

Pupils can access part time and full time vacancies and information about Colleges, Universities, Apprenticeships and employment opportunities through the Careers page on the school website and on Twitter.

Important Dates For Your Diary

Monday 20 January 2025 – S4 online options form opens

Thursday 30 January 2025 – S4 online options form closes

Monday 3 February 2025 – S4 options interviews begin

Fifth Year:

Monday 20 January 2025 – S4/5 options evening (virtual event)

Thursday 27 February 2025 – S5 reports issued

Thursday 27 February 2025 – S5 online options form opens

Tuesday 4 March 2025 – S5 online options form closes

Thursday 6 March 2025 – S5 options interviews begin

Vocational Programme

East Renfrewshire Council has developed a very successful vocational programme providing young people with the opportunity to achieve qualifications and a progression route that fits them best, which will serve their interests, talents and ambition. This is generally most appropriate to enhance the S6 curriculum. In a small number of cases may also be available in S5.

Pupils interested in vocational options should see their Pupil Support teachers to find out more.

Foundation Apprenticeships

Foundation Apprenticeships are a work-based learning opportunity for high school pupils in S5/6. Pupils will spend time out of school at college or with a local employer, and complete the Foundation Apprenticeship alongside their other subjects. The qualification has a one and two year model and is linked to one of six key sectors of the Scottish economy, so young people are getting industry experience which will help them kick-start a successful career in their chosen field.

You may wish to source a work placement yourself. This would need to be health and safety checked by Gateway Service. Pupils should note that this course may cut across other school-based learning and they will be expected to catch up in other study periods.

Pupils interested in Foundation Apprenticeships can obtain more information from their Pupil Support Teacher.

APPENDIX I – ELECTIVE COURSES

Elective Courses for S6 students are available to those who have already secured **five** Higher passes in S5. Those students will be required to choose a minimum of three curricular subjects and an elective course.

Some of the elective courses available for next session (2025/26) are detailed below:

Community Involvement:

Students selecting this option will have the opportunity to give something back to the school through becoming subject ambassadors or assisting in departments, or providing peer tutoring for younger pupils. It may also be possible to organise community involvement placements with external partners, e.g. our cluster primaries.

For further information speak to Mrs Crilley.

Young Enterprise:

The Young Enterprise Company Programme provides students with the opportunity to gain an additional qualification at SCQF Level 6 (26 – 30 Credit points). The programme takes student through the process of how to identify an appropriate business or social enterprise; how to set up your company; how to plan your marketing activity and work towards launching your product and running the business. **There will be a selection process for this course.**

For further information speak to Mrs Sloan.

Young Stem Leader Programme:

This course is offered at SCQF 6 and focusses on identifying the skills, qualities and behaviours of good leaders and positive role models. At this level, YSLs are encouraged to explore the challenges and issues that exist in STEM such as stereotypes, misconceptions and outdated views and how they can positively challenge these through the delivery of activities, events or interactions. In addition, YSLs will learn the importance of health and safety and safeguarding when leading learning experiences for others.

The Young STEM Leader Programme (YSLP) aims to inspire more young people to develop an interest in STEM and pursue the study of STEM subjects and relevant future pathways.

For further information speak to Miss Rasul.

Applied Mechanics:

The Advanced Higher Mathematics of Mechanics course develops, deepens, and extends the mathematical skills necessary at this level and beyond. Throughout this course, students will gain and apply operational skills necessary for exploring ideas in mechanics through symbolic representation and mathematical modelling. Students will develop mathematical reasoning skills and gain experience in making informed decisions.

Any student interested in this course must also be studying Advanced Higher Maths and Advanced Higher Physics.

For further information speak to Mr Stewart/Miss Dickson.

ACCOUNTING

City of Glasgow College – City Campus SCQF Level 5 – *Open to S5/6 Pupils*

COURSE OUTLINE

The aim of the National 5 Accounting course is to help you to understand and use financial information. You will learn to prepare accounting statements as well as analyse, interpret and report on a company's financial performance. The skills you will develop in this course include numeracy and logical reasoning. The course combines practical and theoretical aspects of learning related to accounting, and will allow you to use IT for some tasks.

ATTENDANCE PATTERN

Tuesday & Thursday afternoons (1.30pm to 4pm).
The duration of the course is August to May.

Please note, you will travel home independently by bus or train from the City of Glasgow College. Please refer to the Scottish Government free travel for young people under 22.

PUPIL ELIGIBILITY

You must have:

- National 4 Maths

QUALIFICATION BREAKDOWN

National 5 Accounting SCQF Level 5:

- Financial Accounting
- Management Accounting
- Analysing Accounting Information

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Other National Qualifications, Higher, National Certificates, Higher National Certificates, Higher National Diplomas and degrees in accountancy or other business related subjects. The level you might enter would depend on the level and relevance of your other qualifications.
- Employment and/or training in an accounting related industry.
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond.

ADMINISTRATION AND IT

Higher (SCQF Level 6)

COURSE OUTLINE

The course will help you to develop advanced administrative skills and digital literacy, enabling you to contribute to the effective functioning of organisations in supervisory administrative positions.

You will develop the ability to use a range of advanced software application functions covering word processing, spreadsheets, databases and emerging technologies.

PUPIL ELIGIBILITY

You must have:

- National 5 Administration and IT or a pass in N5 Maths

QUALIFICATION BREAKDOWN

Higher Administration and IT SCQF Level 6:

- IT Solutions for Administrators
- Administrative Theory and Practice
- Communication in Administration

ASSESSMENT:

- Theory examination – 50 marks in May
- Practical assignment – 70 marks in March

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- University courses in Administration & IT, Event Management, Business Administration courses
- College courses in Business Administration & IT
- Careers in almost anything as IT encompasses all careers
- In industry this qualification shows a strong IT capability

ART AND DESIGN

Higher (SCQF Level 6)

COURSE OUTLINE

The Higher Art and Design course provides learners with a broad, practical experience of art and design skills and related Art and Design Studies. The Higher course is divided into three components, Expressive Portfolio, Design Portfolio and Question Paper.

Candidates develop knowledge of art and design practice by studying artists and designers and their work. They also develop an understanding of expressive art and design processes and gain related skills. The course provides opportunities for candidates to be inspired and creatively challenged as they communicate their personal thoughts, ideas and feelings through their work.

PUPIL ELIGIBILITY

You must have:

- National 5 Art & Design

QUALIFICATION BREAKDOWN

Higher Art & Design SCQF Level 6:

- Component 1: Question paper 60 marks
- Component 2: Expressive Portfolio 100 marks
- Component 3: Design Portfolio 100 marks

COURSE FOLIO

Expressive Activity Portfolio

You will draw on, extend and apply the skills you have learned during the production of research and initial development. This area of the course enables you to plan, develop, produce and present art work which demonstrates creativity and the application of practical skills. Through further development of observational drawing and painting skills you will explore methods to visually represent the world you live in and communicate your thoughts, ideas and opinions.

In the portfolio you will produce single object drawings and colour studies, a variety of compositional studies and an final painting.

Design Activity Portfolio

The design folio presents a selection of relevant work, showing the development and refinement of one idea leading to a design solution.

You will draw on, extend and apply the skills you have learned during the production of research and initial development. This area of the course enables you to plan, develop, produce and present design work which demonstrates creativity and the application of practical design skills. Using creativity, problem solving and critical thinking skills, you will resolve design issues and constraints by producing a functional design resolution. Through further development you will produce a variety of design drawings and samples. A final design resolution is produced and photographed.

Both portfolios of work will be presented on three A2 boards which are submitted to the SQA for external assessment.

Art and Design Studies - Written Work

By investigating the work of artists and designers, you will develop a critical understanding of a range of art and design practice, enabling you to understand the impact of social and cultural influences on the work of artists and designers.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Advanced Higher Art and Design, National Qualifications, National Certificates, Higher National Certificates, Higher National Diplomas and degrees Art and Design
- Employment (including SVQs)

ART AND DESIGN (ENQUIRY: DESIGN)

Advanced Higher (SCQF Level 7)

COURSE OUTLINE

The Advanced Higher in Design offers you a programme of study which aims to equip you with diversity of thought, freedom of experimentation and play, and the ability to use your imagination to present and develop new Design ideas. Introducing you to the necessary skills, which will allow you to develop your expertise and realise your full creative design potential.

Candidates research design contexts related to their design brief. They learn about design practice by investigating how designers respond creatively to design problems. They explore how designers integrate visual stimuli and other information from a variety of sources. Candidates apply their understanding of design practice while responding to a design brief to communicate their thoughts and ideas.

PUPIL ELIGIBILITY

You must have:

- Higher Art and Design

QUALIFICATION BREAKDOWN

**Art & Design Enquiry: Design Advanced Higher
SCQF Level 7:**

The portfolio has a total mark allocation of 100 marks. This is 100% of the overall marks for the course assessment. The portfolio assesses candidates' ability to apply design skills and integrate them with their knowledge and understanding of design practice.

DESIGN FOLIO

Throughout the portfolio, candidates have the opportunity to demonstrate skills, knowledge and understanding by:

- selecting a design brief
- producing a practical design work, including – investigative research – development of ideas – resolution and realisation of design work
- applying an understanding of design practice in their design work by using materials, techniques and/or technology to experiment with design elements
- producing a contextual analysis by selecting a design work relevant to their practical design work and discussing the impact of related contexts through analysing the features of the design work
- reflecting on their design process and design work

Writing a dissertation with a maximum of 2000 words you will produce a contextual analysis of a selected design work by discussing related contexts and analysing their impact on the features of the design work. Candidates reflect on and evaluate their creative decisions and design work

Marks are allocated as follows:

Section 1 — practical design work 64 marks

Section 2 — contextual analysis 30 marks

Section 3 — evaluation 6 marks

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- BA Honours Degree in Art and Design
- Other National Qualifications
- Employment (including SVQ's)

ART AND DESIGN

(ENQUIRY: EXPRESSIVE)

Advanced Higher (SCQF Level 7)

COURSE OUTLINE

The Advanced Higher in Art and Design (Expressive): Expressive Enquiry will give you the opportunity to show that you can plan and carry out a personal art enquiry. You will select expressive stimuli and produce initial investigative drawings and studies before developing and refining developmental ideas for art work for the enquiry. You will also analyse your creative choices and decisions and independently evaluate your art work. You will learn to find unexpected patterns, by making connections sometimes between quite unrelated things.

You will show that you can research and investigate an art area of personal interest. You will plan the investigation, analysing examples of art work and practice within a chosen area of art. You will express substantiated personal judgements about art work and the contexts which influenced your work.

PUPIL ELIGIBILITY

You must have:

- Higher Art and Design

QUALIFICATION BREAKDOWN

Advanced Higher Art and Design (Enquiry: Expressive) SCQF Level 7:

The portfolio has a total mark allocation of 100 marks. This is 100% of the overall marks for the course assessment. The portfolio assesses candidates' ability to apply expressive art skills and integrate them with their knowledge and understanding of art practice.

EXPRESSIVE FOLIO

The portfolio is to assess your ability to integrate and apply. Throughout the portfolio, candidates have the opportunity to demonstrate skills, knowledge and understanding by:

- selecting a theme or stimulus
- producing practical expressive artwork, including – investigative research – development of ideas – resolution and realisation of artwork
- applying an understanding of art practice in their artwork by using materials, techniques and/or technology to experiment with visual elements
- producing a contextual analysis by selecting an artwork relevant to their practical expressive artwork and discussing the impact of related contexts through analysing the features of the artwork
- reflecting on their creative process and artwork

Writing a dissertation with a maximum of 2000 words you will produce a contextual analysis of a selected design work by discussing related contexts and analysing their impact on the features of the design work. Candidates reflect on and evaluate their creative decisions and design work.

Marks are allocated as follows:

Section 1 — practical expressive artwork 64 marks

Section 2 — contextual analysis 30 marks

Section 3 — evaluation 6 marks

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- A degree in Art and Design or a related field
- Other National Qualifications
- Employment (including SVQ's)

AUTOMOTIVE SKILLS – FOUNDATION APPRENTICESHIP

Glasgow Kelvin College

SCQF Level 4 – Open to S4/5/6 Pupils

COURSE OUTLINE

The Foundation Apprenticeship in Automotive Skills will give you an opportunity to develop basic practical skills necessary to work in the automotive industry. You will gain experience of carrying out basic vehicle checks, including the specific skills involved in removal and replacement of components and mechanisms of a vehicle. Relevant jobs such as light and heavy vehicle maintenance, motorcycle maintenance, vehicle fitting, auto electrical, accident repair – body and paint operations, parts distribution and roadside assistance. You will gain an overview and an awareness of the skills required by employers within this industry.

ATTENDANCE PATTERN

Tuesday and Thursday afternoons (1.30pm to 4pm).
The duration of the course is August to June.

PUPIL ELIGIBILITY

You must:

- National 4 Maths and English
- Have a genuine interest in car mechanics and enjoy working as part of a team

QUALIFICATION BREAKDOWN

Foundation Apprenticeship in Automotive Skills Level 4 SCQF Level 4:

Skills for Work: Automotive Skills SCQF 4:

- The Garage
- The Technician
- The Car
- The Vehicle Modification Project

The Work-based Challenge

- Work-based Skills Challenge

A Foundation Apprenticeship is a work based learning apprenticeship, where you are expected to attend industry talks, industry visits and work related training.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- City & Guilds (Entry Level) Automotive Vehicle Maintenance and Repair
- Employment opportunities after training such as, Motor Vehicle Technician Apprentice or Car Valet

This course will allow a taste of what to expect in the vehicle repair industry. It will give knowledge which could assist in getting a Modern Apprentice position within a garage or alternatively access to a further education course.

- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond

City of Glasgow College – City Campus SCQF Level 4 – Open to S5/6 Pupils

COURSE OUTLINE

The National Progression Award (NPA) course will guide you through the basic skills and requirements needed to produce a range of bakery products in one of our specialist bakeries. You will explore the bread making processes that are currently in use within the craft baking industry and will use a variety of equipment and techniques to bake a range of breads. You will practise decorative techniques and discover how to use them to produce the desired effect on a cake and you will develop introductory knowledge and practical skills in pastry work and consider the ingredients and techniques used to produce a range of simple pastry items. You will investigate common faults that can occur when making different types of pastry and how to remedy these.

ATTENDANCE PATTERN

Tuesday and Thursday afternoons (1.30pm to 4pm).

Please note, you will travel home independently by bus or train from the City of Glasgow College. Please refer to the Scottish Government free travel for young people under 22.

PUPIL ELIGIBILITY

You must:

- be working at National 4/5 level in literacy and numeracy skills
- have experience of the Home Economics Curriculum
- have an enthusiasm for food and/or baking

QUALIFICATION BREAKDOWN

National Progression Award Bakery SCQF Level 4:

- Craft Baking: An Introduction.
- Bread Making: An Introduction.
- Cake Decoration: An Introduction.
- Pastry

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- National Certificate (NC), Higher National Certificate (HNC) or Higher National Diploma (HND) in Bakery, Professional Cookery or other Hospitality related subjects. The level you might enter would depend on the level and relevance of your other qualifications.

You might also go on to do:

- a Modern Apprenticeship in the hospitality industry, leading to a relevant Scottish Vocational Qualification (SVQ) Levels 2 and 3. You would normally train on the job or off the job at college, restaurant kitchen, professional catering kitchen or training centre. Apprenticeships usually last for two or three years. You will need to be 18 years of age or older for some of the jobs in this sector

BARISTA, EVENTS, EMPLOYABILITY AND ENTERPRISE

SCQF Level 6 – Open to S5/6 Pupils

COURSE OUTLINE

This is a new course bespoke to Mearns Castle High School which combines two Level 6 National Progression Awards and hands on experience developing Barista skills led by the Food Health and Technology department. This award has been designed to develop: practical, technical and transferable skills; oral, written and evaluation abilities; problem solving and planning; and organisational and communication skills which will prepare pupils for a range of roles in the real world of work.

PUPIL ELIGIBILITY

You must:

- have your National 5 in English
- have a keen interest in working at and organising events
- enjoy working as part of a team and have an enthusiastic and mature approach

QUALIFICATION BREAKDOWN

- Level 6 Events
- Level 6 Employability and Enterprise
- Level 5 Barista Unit only

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

A diverse range of jobs within the events and catering industry. This course will develop key skills which could assist with further education and the demands it brings after leaving school.

BIOLOGY

Higher (SCQF Level 6)

COURSE OUTLINE

The Higher Biology course will develop your interest and enthusiasm for biology in a range of contexts. The skills of scientific inquiry and investigation are developed, throughout the course, by investigating the applications of biology. This will enable you to become a scientifically literate citizen, able to review the science-based claims you will meet. This course is a broad and up-to-date selection of concepts and ideas relevant to the central position of life science within our society.

PUPIL ELIGIBILITY

It is recommended that you have:

- National 5 Biology

QUALIFICATION BREAKDOWN

Higher Biology SCQF Level 6:

- DNA and the Genome
- Metabolism and Survival
- Sustainability and Interdependence

COURSE ASSESSMENT

The assignment has two stages:

- A research stage; and
- A report stage, during which the report is written.

The assignment is marked externally by the SQA and is worth 20% of the final overall mark in Biology.

Course Exam – externally set and assessed by SQA.

This is split into 2 Papers - Multiple Choice (25marks) and Extended Response (95 marks).

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Advanced Higher Biology
- Entry to employment, training and further or higher education

Advanced Higher (SCQF Level 7)

COURSE OUTLINE

The Advanced Higher Biology course is based on integrative ideas and unifying principles of modern biological science. It covers key aspects of life science at the molecular scale and extends to aspects of the biology of whole organisms that are among the major driving forces of evolution.

In addition, the Advanced Higher Biology course aims to develop a sound theoretical understanding and practical experience of experimental investigative work in biological science.

PUPIL ELIGIBILITY

You must have:

- Higher Human Biology

QUALIFICATION BREAKDOWN

Advanced Higher Biology SCQF Level 7:

- Cell and Proteins
- Organisms and Evolution
- Investigative Biology

COURSE ASSESSMENT

Course Exam – externally set and assessed by SQA. The question paper has two sections.

Section 1 – contains multiple-choice questions and has 20 marks.

Section 2 – contains structured and extended-response questions and has 80 marks.

Investigation (project)

The purpose of the project is to allow you to carry out an in-depth study of a biology topic. You will individually investigate the underlying biology of your chosen topic, as well as extend and apply the skills of independent /autonomous working. This will further develop and enhance your scientific literacy and assess the application of skills of scientific inquiry and related biology knowledge and understanding.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- HND/degree in a biology based course
- Entry to employment in a biology-based discipline or related area

BIOLOGY: HUMAN

Higher (SCQF Level 6)

COURSE OUTLINE

The course content includes the following areas of human biology:

Human cells

The key areas covered are: division and differentiation in human cells, structure and replication of DNA , gene expression, mutations, human genomics, metabolic pathways, cellular respiration, energy systems in muscle cells.

Physiology and health

The key areas covered are: gamete production and fertilization, hormonal control of reproduction, the biology of controlling fertility, antenatal and postnatal screening, the structure and function of arteries, capillaries and veins, the structure and function of the heart, pathology of cardiovascular disease (CVD) , blood glucose levels and obesity.

Neurobiology and immunology

The key areas covered are: divisions of the nervous system and neural pathways , the cerebral cortex, memory, the cells of the nervous system and neurotransmitters at synapses, non-specific body defences , specific cellular defences against pathogens, immunization, clinical trials of vaccines and drugs.

PUPIL ELIGIBILITY

It is recommended that you should have:

- National 5 Biology

QUALIFICATION BREAKDOWN

- Higher Human Biology SCQF Level 6
- Human Cells
- Physiology and Health
- Neurobiology and Immunology

The assignment is marked externally by the SQA and is worth 20% of the final overall mark in Human Biology.

Course Exam – externally set and assessed by SQA. This is split into 2 Papers - Multiple Choice (25marks) and Extended Response (95 marks).

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Advanced Higher Biology
- Entry into employment, training or further education

BUILDING SERVICES ENGINEERING

Glasgow Kelvin College - Springburn Campus

SCQF Level 4 – Open to S5/6 Pupils

COURSE OUTLINE

The National 4 in Building Services Engineering will provide you with the knowledge and understanding of building services engineering and the course will allow you to develop transferable skills such as problem solving, planning, organisational and communication skills.

ATTENDANCE PATTERN

Tuesday and Thursday afternoons (1.30pm to 4pm).
The duration of the course is August until April.

PUPIL ELIGIBILITY

You must have:

- National 4 Maths
- An interest in working in the electrical, plumbing or HVAC industry

QUALIFICATION BREAKDOWN

National 4 in Building Services Engineering SCQF Level 4:

- Building Services Engineering: Introduction to Safe Working Practices
- Building Services Engineering: Introduction to Energy
- Building Services Engineering: Introduction to Science
- Building Services Engineering: An Introduction
- Building Services Engineering: Employability Skills

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Modern Apprenticeships in Heating and Ventilation, Service and Maintenance, Refrigeration and Air Conditioning or general employment in the engineering or construction industry.
- A National Progression Award in Building Services Engineering. The level you might enter would depend on the level and relevance of your other qualifications.
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond.

BUILDING SERVICES ENGINEERING

Glasgow Kelvin College - Springburn Campus

SCQF Level 5 – Open to S5/6 Pupils

COURSE OUTLINE

The National Progression Award (NPA) in Building Services Engineering will provide you with the knowledge and understanding of building services engineering and the course will allow you to develop transferable skills such as problem solving, planning, organisational and communication skills.

ATTENDANCE PATTERN

Tuesday and Thursday afternoons (1.30pm to 4pm).
The duration of the course is August to April.

PUPIL ELIGIBILITY

You must have:

- National 5 Maths

QUALIFICATION BREAKDOWN

National Progression Award in Building Services Engineering
SCQF Level 5:

- Basic Electrical Installation Operations
- Basic Plumbing Operations
- Basic Heating and Ventilation Operations
- Basic Refrigeration and Air Conditioning Operations
- Energy and the Environment
- Systems, Roles, Responsibilities and Procedures
- Science

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Modern Apprenticeships in Heating and Ventilation, Service and Maintenance, Refrigeration and Air Conditioning or general employment in the engineering or construction industry. A National Certificate in Building Services Engineering, Electrical Installation, Plumbing, Mechanical Engineering or Manufacturing Engineering
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond.

BUILDING SERVICES ENGINEERING

Glasgow Kelvin College - Springburn Campus SCQF Level 6 – Open to S6 Pupils

COURSE OUTLINE

The National Certificate (NC) in Building Services Engineering will provide you with the opportunity to develop the knowledge, understanding and skills of the building services engineering sector of the construction industry.

ATTENDANCE PATTERN

Monday and Wednesday all day.

Please note, that unlike other options, this course requires continuous attendance from August to June and may impact on other subjects attendance. In addition, you will travel independently by bus or train.

PUPIL ELIGIBILITY

You must have:

- National 5 Maths and a Science at A or B level

QUALIFICATION BREAKDOWN

**National Certificate in Building Services Engineering
SCQF Level 6:**

Mandatory Units:

- Health and Safety
- Graphical Detailing
- Science
- Electrical & Electronic Technology
- Building Services Engineering Technology
- Mathematics: Technician
- Construction Technology & Design
- Building Services Engineering: Design Project

You will study optional units to be discussed with the lecturer once course commences, such as:

- Heating & Plumbing
- Air Conditioning & Ventilation
- Refrigeration Technology
- Planning, Organisation and Control of Resources in Construction

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to:

- Modern Apprenticeships in Heating and Ventilation, Service and Maintenance, Refrigeration and Air Conditioning or general employment in the engineering or construction industry.
- A Higher National Certificate (HNC) in Building Services Engineering, Electrical Installation, Plumbing, Mechanical Engineering or Manufacturing Engineering
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond.

BUILDING SERVICES ENGINEERING

Glasgow Kelvin College - Springburn Campus SCQF Level 7 – Open to S6 Pupils

COURSE OUTLINE

The Higher National Certificate (HNC) course will provide you with the opportunity to develop technical skills in Building Services Engineering. You will undertake a course of study that relates to the design, installation, maintenance and management of heating, ventilation and air conditioning (HVAC) systems within commercial/industrial buildings.

ATTENDANCE PATTERN

Monday and Wednesday all day.

Please note, that unlike other options, this course requires continuous attendance from August to June and may impact on other subjects attendance. In addition, you will travel independently by bus or train.

PUPIL ELIGIBILITY

You must have:

- Higher Maths or Physics

QUALIFICATION BREAKDOWN

**Higher National Certificate in Building Services Engineering
SCQF Level 7:**

- Design Principles and Application
- Heating
- Ventilating and Air Conditioning
- Thermofluids and Acoustic Criteria
- Analytical Methods
- Building Services Engineering Science
- Piped Distribution Services
- Health and Safety in the Building Services Industry
- Building Services Project Management
- Final Project

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to:

- Glasgow Kelvin College has an articulation partnership with many universities to a degree in engineering
- Modern Apprenticeships in Heating and Ventilation
- Service and Maintenance
- Refrigeration and Air conditioning or general employment in the engineering or construction industry
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond.

CHEMISTRY

Higher (SCQF Level 6)

COURSE OUTLINE

The Higher Chemistry course provides a good basis for the future study of chemistry and chemistry-related subjects in higher education or if you wish to pursue a career in a science-based area.

The Higher Chemistry course builds upon prior learning and covers key areas of organic, physical, inorganic and analytical chemistry. The 'Researching Chemistry' unit provides you with the opportunity to develop and apply your literacy, numeracy, communication and scientific investigative skills within a topical, scientific context.

PUPIL ELIGIBILITY

You must have:

- National 5 Chemistry and National 5 Mathematics

QUALIFICATION BREAKDOWN

Higher Chemistry SCQF Level 6:

- Chemical Changes and Structure
- Nature's Chemistry
- Chemistry in Society

COURSE ASSESSMENT

SQA Question Papers (80% of final grade)

Question Paper 1 – 25 marks of multiple choice questions (40 mins).

Question Paper 2 – 95 marks of written questions (2 hrs 20 mins).

Completed during the main SQA diet of exams, April – June.

Assignment (20% of final grade)

A written report of a chemical investigation completed during the Researching Chemistry Unit.

The Assignment Report is externally marked by the SQA.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Advanced Higher Chemistry
- A full time higher education course, such as a Higher National Certificate (HNC), Higher National Diploma (HND) or degree. The level you might enter would depend on the level and relevance of your other qualifications

CHEMISTRY

Advanced Higher (SCQF Level 7)

COURSE OUTLINE

The Advanced Higher Chemistry course will develop your knowledge and understanding of the physical and natural environments. The course builds on the Higher level, developing further the underlying theories of chemistry and the practical skills used in the chemical laboratory. The course also develops the skill of independent study and thought that are essential in a wide range of occupations.

PUPIL ELIGIBILITY

You must have:

- Higher Chemistry and Higher Mathematics

QUALIFICATION BREAKDOWN

Advanced Higher Chemistry SCQF Level 7:

- Inorganic and Physical Chemistry
- Organic Chemistry and Instrumental Analysis
- Researching Chemistry

COURSE ASSESSMENT

SQA Question Paper (75% of final grade)

3 hour exam, this is one paper worth 110 marks, consisting of 25 marks of multiple choice questions and 85 marks of written questions.

Completed during the main SQA diet of exams, April – June.

Project (25% of final grade)

The project will assess the application of skills of scientific inquiry and related chemistry knowledge and understanding. It requires you to demonstrate aspects of challenge and application; you will apply skills of scientific inquiry, using related knowledge, to carry out meaningful and appropriately challenging tasks in chemistry and communicate findings in a report.

The project will be externally marked by the SQA.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

Further study at a higher education undertaking Higher National Diplomas (HND) and degrees in Science, Engineering, Medicine and Teaching. The level you might enter would depend on the level and relevance of your other qualifications.

CHILDCARE DEVELOPMENT

Glasgow Clyde College – Langside Campus SCQF Level 4 – Open to S5/6 Pupils

COURSE OUTLINE

The Skills for Work (SfW) in Early Education and Childcare course at Glasgow Clyde College can offer you an introduction to the basic knowledge and skills required to prepare you for further study leading to potential employment in the early education and childcare sector.

You must have:

- 3 passes at National 5, 1 of which should be Maths
- Due to the competitive nature of this sector, it helps if you demonstrate a real passion for gaming.

QUALIFICATION BREAKDOWN

National Progression Award in Computer Games Development SCQF Level 5:

- Computer Games Design
- Computer Games Media Assets
- Computer Games Development

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You will have the opportunity to progress to studying the National Certificate (NC) in Computer Games Development. If you have Higher Maths progression to the Higher National Certificate/Diploma (HNC/D) in Computer Games Development is encouraged.

You might go on to do:

- A full time higher education course, such as a Higher National Certificate (HNC), Higher National Diploma (HND) or degree, in the computer games industry, computer games (Design), programmer, or related area of study. The level you might enter would depend on the level and relevance of your other qualifications.
- A career in graphic design or as a games tester.
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond.

COMPUTING SCIENCE

Higher (SCQF Level 6)

COURSE OUTLINE

The course introduces candidates advanced computational processes, which you will learn to apply across a variety of contemporary contexts. You will also gain an awareness of the important role that computing professionals play in meeting the needs of society today and for the future.

You will develop your skill in analysis, design, implementation, testing and evaluation to create a range of complex digital solutions through the use of programming, database and website development. You will then learn how to communicate advanced computing concepts and explain computational behaviour clearly and concisely, using appropriate terminology. Finally, you will develop awareness of current trends in computing technologies and their impact in transforming and influencing our environment and society.

PUPIL ELIGIBILITY

You must have:

- Computing Science at National 5 at level A or B or a pass in N5 Maths

QUALIFICATION BREAKDOWN

- Software Design and Development (45 marks)
- Computer Systems (10 marks)
- Database Design and Development (25 marks) OR Web Design and Development (25 marks)

ASSESSMENT IS COMPRISED OF:

- Examination – 80 marks May
- Practical Assignment – 40 marks Feb/March

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- A full time higher education course, such as a Higher National Certificate (HNC), Higher National Diploma (HND)
- Degree in a variety of computing related disciplines such as Web Design, Computers Games Design, Cyber Security or Software Engineering

The level you might enter would depend on the level and relevance of your other qualifications

CONSTRUCTION – FOUNDATION APPRENTICESHIP

Glasgow Clyde College - Cardonald Campus SCQF Level 5 – Open to S5/6 Pupils

COURSE OUTLINE

The Construction Foundation Apprenticeship course includes practical construction crafts units in 5 trade areas. It is a suitable level of entry for candidates with an aptitude for practical crafts work who can cope with demands at National 5. You will learn a variety of skills in the trade specific units. In addition, you will develop skills and attitudes that enhance employability, not just in the Construction industry but in employment generally.

Included in the course is the Work-Based Challenge Unit which will require you to draw on technical skills developed through the course and apply these in a work based situation. The course will have the involvement of an Industry partner in developing and evaluating the challenge.

ATTENDANCE PATTERN

Tuesday & Thursday afternoons (1.30pm to 4pm).

QUALIFICATION BREAKDOWN

Construction Foundation Apprenticeship Level 5 SCQF Level 5:

- Work-Based Skills: Construction
- Construction Craft and Technician
- Understanding Industry
- Personal Development: Self and Work

You will also undertake three introductory practical units which will be selected to suit a project identified by a partner industry employer. The trade areas for selection are: Joinery, Brickwork, Painting & Decorating or Roof Slating & Tiling.

- Work-based Skills Challenge

A Foundation Apprenticeship is a work based learning apprenticeship, where you are expected to attend industry talks, industry visits and work related training.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- A Modern Apprenticeship in construction at craft or operative level. You would train on the job, on a building site or workshop, and off the job at a college or training centre.
- A 1 year full time course National Certificate (NC) or National Qualification (NQ) course, in a related area of study such as Construction Skills or Construction Crafts at a college of further education
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond.

CONSTRUCTION SKILLS

Glasgow Clyde College – Vocational Facilities @ Barrhead High School SCQF Level 4 – Open to S5/6 Pupils

COURSE OUTLINE

The National Progression Award in Construction Craft and Technician course will develop your practical skills and enable you to demonstrate your ability to complete common tasks within the construction industry. It will help you gain an understanding of the construction industry and will assist you to make informed choices regarding a career in construction. INTRODUCTION TO TEACHER EDUCATION

University of Strathclyde – John Anderson Campus

Open to S6 Pupils

COURSE OUTLINE

The Introduction to Teacher Education will provide you with an introduction to the teaching profession – both primary and secondary. You will explore four themes, where you will be drawing on your previous experiences to highlight your own key strengths and examining how these attributes are desirable in Education. You will look at what you know about pupil engagement and success in learning and will experience different approaches. You will have the opportunity to consider the various components that contribute to effective learning and teaching and build skills in these areas. You will get the opportunity to plan, design, deliver and evaluate lessons and learning opportunities. Links will be made to any work experience/volunteering you are currently undertaking.

In addition, you will review what you know about learning and teaching, and identifying what you have gained from the programme with a view to supporting you in generating your personal statements, assisting and preparing you for the application process.

ATTENDANCE PATTERN

Tuesday & Thursday afternoons (1.30pm to 4pm).
The duration of the course is August to December.

Please note, you will travel home independently by bus or train from Strathclyde University. Please refer to the Scottish Government free travel for young people under 22.

PUPIL ELIGIBILITY

You must have:

- A pass in Higher English at A or B level
- A pass in National 5 Maths at Grade C or above

QUALIFICATION BREAKDOWN

Personal Development: Practical Abilities SCQF Level 6:

- Prepare to develop practical abilities within a project(s)
- Develop practical abilities
- Review own practical abilities used in a project(s)

During this course, you will be required to do a placement (this will be discussed with your school to best fit with your timetable and current studies). Please note, you will travel independently by bus or train when participating in your placement.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- BA in Primary Education
- Other university course to study a subject relevant to teaching followed by a PGDE
- BA Education Studies
- Joint honours programme with Education as a subject
- Employment opportunities after training such as, teacher - primary or early years, classroom assistant or teacher - additional support for learning
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond

JOURNALISM

City of Glasgow College – Cardonald Campus SCQF Level 6 – Open to S5/6 Pupils

COURSE OUTLINE

The National Progression Award aims to provide you with an introduction to the activities involved in journalism. QUALIFICATION BREAKDOWN

National Progression Award Journalism SCQF Level 6:

- Media: Research and Interview Skills for Journalism
- Media: Feature Writing
- Media: News Writing for Print
- Media: Basic Website Development

COURSE ASSESSMENT

You will study a range of media artefacts before undertaking a research and production project.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

Upon successful completion and subject to attendance, effort and commitment you will be offered an Unconditional place within Glasgow Clyde College on one of the following courses. The level you might enter would depend on the level and relevance of your other qualifications.

You might go on to do:

- Higher National Diploma (HND) Journalism and Content Production course
- Higher National Diploma (HND) Media and Communication
- Higher National Diploma (HND) Digital Film and Television
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond

Higher (SCQF Level 6)

COURSE OUTLINE

The Higher course comprises two units studied simultaneously:

- Understanding Language
- Using Language

PUPIL ELIGIBILITY

Have achieved an A at National 5 for Mandarin Simplified (Traditional)

QUALIFICATION BREAKDOWN

- Understanding Language: Reading and Listening
- Using language: Talking and Writing
- Final exam: Including internally assessed talking performance

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

An opportunity to study Advanced Higher Mandarin or following college courses/degree courses solely based on the study of languages or one of a variety of courses offered at college/university which combine a language with other disciplines. There are a variety of career opportunities with a language degree including business, engineering, teaching, law and many other areas.

Opportunities to study abroad (e.g. Mainland of China, Taiwan, Malaysia, Singapore)

Advanced Higher (SCQF Level 7)

COURSE OUTLINE

The Advanced Higher Mandarin course will allow you to develop further your language skills to a level of competence, whether or not you intend to follow a language course in higher or further education. The course provides you with the opportunity to further develop your skills of reading, listening, talking and writing. In addition it will contribute to your general education through consideration of intellectually stimulating topics. As far as possible, the foreign language is the medium of instruction and discussion. You will have access to a range of authentic materials including videos, newspapers and magazines.

PUPIL ELIGIBILITY

You must have:

- Higher Mandarin at A or B

QUALIFICATION BREAKDOWN

Advanced Higher Mandarin SCQF Level 7:

- Unit Name: Understanding Language: Reading and Listening
- Unit Name: Using language: Talking and Writing
- Specialist Study

Final Exam: Including an externally assessed talking performance

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

Further study of Mandarin at University or College - A variety of courses offered at college/university combine a language with other disciplines or following college courses/degree courses solely based on the study of languages.

Opportunities to study abroad (e.g Mainland of China, Taiwan, Malaysia, Singapore).

A variety of career opportunities are opened to you with a language degree including business, engineering, teaching, law as well as many others.

MATHEMATICS

National 5 (SCQF Level 5)

COURSE OUTLINE

The National 5 Mathematics course aims to build upon skills learned within the curriculum for excellence and extend candidates' mathematical thinking. You will be given the opportunity to develop problem-solving skills with emphasis being placed on developing an appreciation of the power of mathematical language and the efficiency of algorithms in preparation for the Higher course.

PUPIL ELIGIBILITY

You must have:

- National 4 Mathematics

QUALIFICATION BREAKDOWN

National 5 Mathematics SCQF Level 5:

- Expressions and Formulae
- Applications
- Relationships

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

The skills and knowledge of mathematics gained at National 5 level is useful in many scientific, technological, engineering and mathematical (STEM) contexts.

You might go on to do:

- Higher Mathematics
- A full time higher education course, such as a Higher National Certificate (HNC), Higher National Diploma (HND) or degree

The level you might enter would depend on the level and relevance of your other qualifications.

MATHEMATICS

Higher (SCQF Level 6)

COURSE OUTLINE

The Higher Mathematics course will give you the opportunity to gain confidence in applying mathematical techniques proficiently, manipulating symbolic expressions and communicating with mathematical correctness in the solution of problems. In addition, you will develop an understanding of underlying processes. They will involve the ability to use these skills within mathematical contexts, such as in solving equations or working with indices, surds and logarithms.

PUPIL ELIGIBILITY

You must have:

- National 5 Mathematics at A or B level

QUALIFICATION BREAKDOWN

Higher Mathematics SCQF Level 6:

- Expressions and Functions
- Relationships and Calculus
- Applications

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- A full time higher education course, such as a Higher National Certificate (HNC), Higher National Diploma (HND) or degree. The level you might enter would depend on the level and relevance of your other qualifications

MATHEMATICS

Advanced Higher (SCQF Level 7)

COURSE OUTLINE

The Advanced Higher Mathematics course aims to build upon and extend your mathematical skills, knowledge and understanding in a way that recognises problem solving as an essential skill and enables them to integrate their knowledge of different aspects of the subject. You will have the opportunity to develop a range of mathematical skills and in addition, skills in calculus, algebra and areas such as number theory, complex numbers and matrices.

PUPIL ELIGIBILITY

You must have:

- Higher Mathematics at A or B level

QUALIFICATION BREAKDOWN

Advanced Higher Mathematics SCQF Level 6:

- Methods in Algebra and Calculus
- Applications in Algebra and Calculus
- Geometry, Proof and Systems of Equations

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- A full time higher education course, such as a Higher National Diploma (HND) or degree. The level you might enter would depend on the level and relevance of your other qualifications.

MECHANICAL ENGINEERING

Glasgow Kelvin College – Springburn Campus SCQF Level 7 – Open to S6 Pupils

COURSE OUTLINE

The Higher National Certificate (HNC) in Mechanical Engineering is a unique opportunity to complete a recognised qualification within 1 year and providing you with the opportunity to progress to HND Level or University. This course can enhance your potential prospects for employment in engineering and create opportunities for aspiring engineers and technicians.

You will study the fundamental concepts of mechanical engineering including dynamics, statics, thermodynamics and fluid mechanics. You will gain skills in subjects such as CAD, engineering drawing and other industry essential subjects and you will learn within the classroom, CAD laboratory and a purpose built engineering laboratory.

ATTENDANCE PATTERN

Monday and Tuesday all day.

Please note, that unlike other options, this course requires continuous attendance from August to June and may impact on other subjects attendance. In addition, you will travel independently by bus or train.

PUPIL ELIGIBILITY

You must have:

- Higher Maths or Higher Physics

QUALIFICATION BREAKDOWN

**Higher National Certificate in Mechanical Engineering
SCQF level 7:**

- Dynamics
- Thermofluids
- Pneumatics & Hydraulics
- Statics and Strength of Materials
- Materials Selection
- Engineering Mathematics 1
- Communication: Practical Skills
- Quality Management: An Introduction
- Engineering Principles
- Computer Aided Design
- Engineering Drawing

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Higher National Diploma (HND) Mechanical Engineering
- University (Subject to university entry criteria)
- Employment as a junior technician or engineering apprentice
- Skills Development Scotland professionally qualified careers advisers are available in school to support young people with making key career decisions as they progress through school, and beyond.

MEDIA AND CONTENT PRODUCTION

Glasgow Clyde College – Cardonald Campus SCQF Level 6 – Open to S5/6 Pupils

COURSE OUTLINE

The National Progression Award (NPA) in Creative and Digital Media will provide you with the opportunity to develop practical skills to create a podcast, produce a short film, learn more about the advertising and marketing industry and allow you to create your own advert using Photoshop. You will learn about the introductions of animation, creating your own piece of animation in the process. Through the completion of practical projects, you'll learn how to use Adobe video and image editing software as well as audio editing software.

MEDIA STUDIES

Higher (SCQF Level 6)

COURSE OUTLINE

This course is made up of two mandatory Units; both of the units allow the learner to develop their skills in relation to the key aspects of media literacy: categories, language, narrative, representation, audience and institution, and to integrate them. Additionally, as analysis and creation are inextricably linked, the two units taken together allow the learner to integrate media theory with production. Learners will also develop an understanding of the role of media, as well as how media texts reflect and comment on society. Units are statements of standards for assessment and not programmes of learning and teaching. They can be delivered in a variety of ways.

Analysing Media Content

The purpose of this unit is to provide learners with the opportunity to develop skills required to understand and analyse media content. Learners will demonstrate knowledge of the relevant media contexts, roles and key aspects of media literacy central to the detailed and complex analysis of media content.

Creating Media Content

The purpose of this unit is to provide learners with the opportunity to develop the skills and knowledge needed to plan and create media content, drawing on their theoretical knowledge, as well as evaluate production processes.

PUPIL ELIGIBILITY

S6

You should have a Higher English pass at Level B or better. Alternatively you should have a Higher English pass at Level C as well as a Higher Social Subject (History, Geography or Modern Studies) pass at Level C or better.

S5

You should have a National 5 English pass at level B or better

QUALIFICATION BREAKDOWN

Higher Media SCQF Level 6: 24 pts

Analysis of Media Content in Context

Analysis of Media Texts

Role of Media

Assignment – you will be asked to plan, produce, edit and evaluate a short film. A folio containing your justifications for your planning decisions based on primary and secondary research, and your evaluation of the development of these plans, along with your finished product will be sent to the SQA for assessment.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- A full-time further education course in media or journalism
- Film and TV production and editing
- Print media design and production
- Advertising and marketing

MODERN STUDIES

Higher (SCQF Level 6)

COURSE OUTLINE

The Higher Modern Studies course is designed to equip you with the skills necessary for today's society. By studying the Higher course it is hoped that you will improve your ability to understand, through research, discussion and debate, many contemporary issues within the UK and the wider world. The course requires candidates to study issues from within the UK and the wider world.

PUPIL ELIGIBILITY

PERSONAL DEVELOPMENT

(SCQF Level 6)

COURSE OUTLINE

The Personal Development Award provides opportunities for experiential learning, which will enable learners to reflect on their progress and help build confidence, self-reliance and self-esteem. It also provides an opportunity to demonstrate and recognise achievement in a variety of situations. This may also complement and enhance learning in other subjects and contexts. There will be opportunities for working with others on collaborative projects. The insights gained from undertaking the Award may enable learners to progress confidently onto further study or into employment.

The main purpose of the Personal Development Award is to provide an opportunity for learners to develop the skills and self-knowledge to prepare them for successful transitions in life.

A key feature of the Award is the potential for personalisation and choice, as learners are able to focus on their own development needs and, with support, to set targets and identify tasks to address these needs. Active learning will be promoted and learners will have the opportunity at times to work collaboratively with others to discuss, plan, implement and present their ideas as part of individual and group projects.

QUALIFICATION BREAKDOWN

In the *Personal Development: Self Awareness Unit* (SCQF levels 4–6), learners will aim to build confidence and self-esteem through self-evaluation of their own qualities, feelings, achievements and areas of development, whilst undertaking a group project.

In the *Personal Development: Self and Community Unit*, learners will aim to improve their self-reliance and confidence. They will develop their interpersonal skills as they work with others to participate in a group project in the context of one or more communities.

In the *Personal Development: Self and Work Unit*, learners will aim to improve their self-reliance and confidence by participating in setting targets for the development of task management skills while carrying out a vocational project.

In the *Personal Development: Practical Abilities Unit*, learners will aim to improve their self-reliance and confidence by demonstrating their practical abilities while participating in one or more projects.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

This Award or its components may provide progression to the Personal Development Award at a higher level, or other Awards such as Steps to Work Award, Employability Award, Wellbeing Award or Leadership Award (SCQF levels 5 and 6).

This course will provide opportunities for learners to enhance skills and develop themselves, gaining increased confidence and motivation to learn in new context. This is fantastic award to have when it comes to CV writing and job interviews.

PERSONAL TRAINING

Personal Development Award (SCQF Level 7)

COURSE OUTLINE

The Professional Development Award in Personal Training at SCQF level 7 is a relatively new award and is designed for individuals who plan to be involved in the delivery of personal training services. This award will provide individuals with the opportunity to improve their knowledge, skills and understanding needed to work with personal training clients in a variety of settings. The PD Award in Personal Training at SCQF level 7 includes learning experiences in the following specialist areas: core strength and posture, delivering personal training sessions, development of knowledge of metabolic considerations for personal trainers, planning and management of personal training, and working effectively and safely with clients.

PUPIL ELIGIBILITY

You must have:

- B pass in Higher English

QUALIFICATION BREAKDOWN

Professional Development Award: Personal Training (SCQF Level 7):

- Core Strength and Posture
- Deliver Personal Training Sessions
- Metabolic Considerations for Personal Trainers
- Planning and Management of Personal Training
- Working Effectively and Safely with Clients

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

This course prepares students to enter the Health and Fitness industry by developing professional practice. This qualification may provide an opportunity to obtain a work related qualification to enhance their skills. The PDA is mapped to the mandatory Units which form either HNC, or the first year of the HND award.

PHOTOGRAPHY

Higher (SCQF Level 6)

COURSE AIMS AND DESCRIPTION

The course aims to develop;

- practical and creativity skills
- knowledge, understanding and skills involved in photography
- planning and evaluation skills

Pupils must complete 2 mandatory internally assessed/SQA verified units, we follow the SQA combined approach (work on both units together):

- Photography: Image Making (Higher)
- Photography: Contextual Imagery (Higher)

As well as an SQA externally marked Course Assessment Project

PUPIL ELIGIBILITY

No experience necessary, although a National 5/Higher Art and Design qualification can be beneficial.

- An interest in photography is essential

ASSESSMENT

- **UNIT** - Contextual Imagery and Image Making (internally assessed)
 - 'Masters of Photography' – A research project (different styles/genres); inspiration from 2 relevant photographers.
 - Produce 6 final images showcasing understanding of technical ability, compositional awareness, different styles and genres.
 - Present findings in PowerPoint format

- **COURSE ASSESSMENT** – Project (100 marks = 100% of SQA grade)

1. Question paper. 1 hour exam worth 30 marks
2. Project worth 100 marks. This is 77% of the overall marks for the course assessment.

The project has three sections.

Section 1: planning, research and investigation 20 marks

Section 2: development and production 70 marks

Section 3: evaluation 10 marks

PROGRESSION

The evidence that pupils produce can be used to demonstrate the wider skills that are desirable at a college/university or job interview: -

- Organisation
- Time management
- Creativity
- Confidence
- Presentation
- Interpersonal
- Communication
- Dexterity (Hand to eye co-ordination)

PROGRESSION

Photographer; Wedding/Studio/Fine Art/Fashion/Police/Forensic/Photo Journalist/ Magazine/Newspaper, Film/TV camera operator, Cinematographer, Graphic Design, Web Design, Advertising, Teaching, Animation, Computer Graphics, Games Design.

Motor skills developed can be of great benefit to a wider range of other careers such as dentists, surgeons, veterinarians, landscape gardening and chefs.

PHYSICAL EDUCATION

Higher (SCQF Level 6)

COURSE OUTLINE

This course gives candidates the opportunity to develop and enhance their movement and performance skills. They develop knowledge and understanding and apply this to the analysis and evaluation of performance in physical activities. Candidates develop their thinking skills through planning, problem solving and analysing performance. Taking part in physical education acts as a stimulus for personal achievement, enabling candidates to develop confidence, resilience, responsibility and the ability to work cooperatively with others. The course promotes awareness of mental, emotional, social and physical wellbeing. Candidates perform in a range of contexts, and develop the ability to reflect on their own performances and those of others.

PUPIL ELIGIBILITY

You must have:

- National 5 Physical Education
- A keen interest in physical activity and sport

QUALIFICATION BREAKDOWN

Higher Physical Education SCQF Level 6:

- Physical Education: Performance Skills
- Physical Education: Factors Impacting on Performance

COURSE ASSESSMENT

Assessment of this course is made up of the following two components:

- Performance
- Factors Impacting Performance (exam paper)

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Further study at a college of further education undertaking Higher National Certificates (HNC), Higher National Diplomas (HND) and degrees in Sports Science, Physiotherapy, P.E. Teaching or Sports Management. The level you might enter would depend on the level and relevance of your other qualifications

PHYSICAL EDUCATION

Advanced Higher (SCQF Level 7)

COURSE OUTLINE

The Advanced Higher Physical Education course will give you the opportunity to research and critically evaluate factors which underpin and impact on performance, and use this knowledge to develop your own high-level performance and/or the performance of others. This course gives you the opportunity to explore key aspects of your performance. You are required to achieve a high level of performance by serious training and by developing disciplined and refined technique. The course aims to develop your knowledge and understanding of the nature and demands of quality performance and of factors which affect performance. The course will contribute to your personal and social development and will promote independent learning.

PUPIL ELIGIBILITY

You must have:

- A pass in Higher Physical Education at A or B level
- A pass in Higher English would be a considerable advantage in this course
- A keen interest in physical activity and sport and performing to a high level

QUALIFICATION BREAKDOWN

Advanced Higher Physical Education SCQF Level 7:

- Physical Education: Performance Skills
- Physical Education: Factors Impacting on Performance

COURSE ASSESSMENT

Assessment of this course is made up of the following two components:

- Performance
- Analysis and Development of Performance

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Further study at a college of further education undertaking Higher National Diplomas (HND) and degrees in Sports Science, Physiotherapy, P.E. Teaching or Sports Management. The level you might enter would depend on the level and relevance of your other qualifications

Higher (SCQF Level 6)

COURSE OUTLINE

The Higher Physics course will develop your curiosity, interest, and enthusiasm for Physics in a range of contexts. The skills of scientific inquiry and investigation are developed throughout the course, and the relevance of physics is highlighted by the study of the applications of physics in everyday contexts.

PUPIL ELIGIBILITY

You must have:

- National 5 Physics
- National 5 Mathematics

QUALIFICATION BREAKDOWN

Higher Physics SCQF Level 5:

- Our Dynamic Universe
- Particles and Waves
- Electricity

COURSE ASSESSMENT

The course assessment has three components: two question papers and an assignment. The relationship between these three components is complementary, to ensure full coverage of the knowledge and skills of the course.

The question papers have a total mark allocation of 155 marks. This contributes 80% to the overall marks for the course assessment.

- Question paper 1 (which is 45 minutes) contains multiple-choice questions and has 25 marks. This is not scaled.
- Question paper 2 (which is 2 hours and 15 minutes) contains restricted-response and extended-response questions and has 130 marks. This is scaled to 95 marks.

The assignment has a total mark allocation of 20 marks. This is scaled to 30 marks by SQA. This contributes 20% to the overall marks for the course assessment.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Further study of Physics at Advanced Higher level
- Further study at a college of further education undertaking Higher National Diplomas (HND) and degrees in Science, Engineering, Medicine and Teaching. The level you might enter would depend on the level and relevance of your other qualifications

Advanced Higher (SCQF Level 7)

COURSE OUTLINE

The Advanced Higher Physics course will give you an opportunity to build on the knowledge and skills developed in the Higher physics course and to use your mathematical knowledge and skills to analyse and solve problems in real-life contexts. Through a deeper insight into the structure of the subject, the course reinforces and extends knowledge and understanding of the concepts of physics and develops skills in investigative practical work.

PUPIL ELIGIBILITY

You must have:

- Higher Physics
- Higher Mathematics

QUALIFICATION BREAKDOWN

Advanced Higher Physics SCQF Level 7:

- Rotational Motion and Astrophysics
- Quanta and Waves
- Electromagnetism

COURSE ASSESSMENT

The course assessment has two components, a question paper and a project.

There is a single question paper worth 155 marks which you are given 3 hours to complete. This is scaled by SQA to represent 75% of the overall marks for the course assessment.

The project has 30 marks. This is scaled by SQA to represent 25% of the final mark.

WHAT OPPORTUNITIES WILL BE AVAILABLE TO ME WHEN I FINISH?

You might go on to do:

- Further study at a higher education undertaking Higher National Diplomas (HND) and degrees in Science, Engineering, Medicine and Teaching. The level you might enter would depend on the level and relevance of your other qualifications

SPORTS DEVELOPMENT

National Progression Award (SCQF Level 6)

COURSE OUTLINE

This National Progression Award course allows students with an interest in physical activities to apply skills in a coaching context. Students assist in our associated Primary Schools, supporting the delivery of PE lessons and after school clubs. The course is assessed via a project and internal assessments which look at the skills of organising and delivering coaching sessions.

These courses will allow S6 pupils who have successfully achieved Higher PE in S5 the opportunity to gain further qualifications in the field of PE and Sport. It would also provide S5 pupils the opportunity to study a different type of PE course than the National 4 or 5 course completed in S4.

PUPIL ELIGIBILITY

Students would normally be expected to have attained:

- A National 5 PE course award

CONTENTS COVERED

- Unit 1 Activity and participation opportunities in the community
- Unit 2 Investigate activity development opportunities in an organisation

UNDERSTANDING SPORTS DEVELOPMENT
