

Learning Pathways

These graphics aim to:

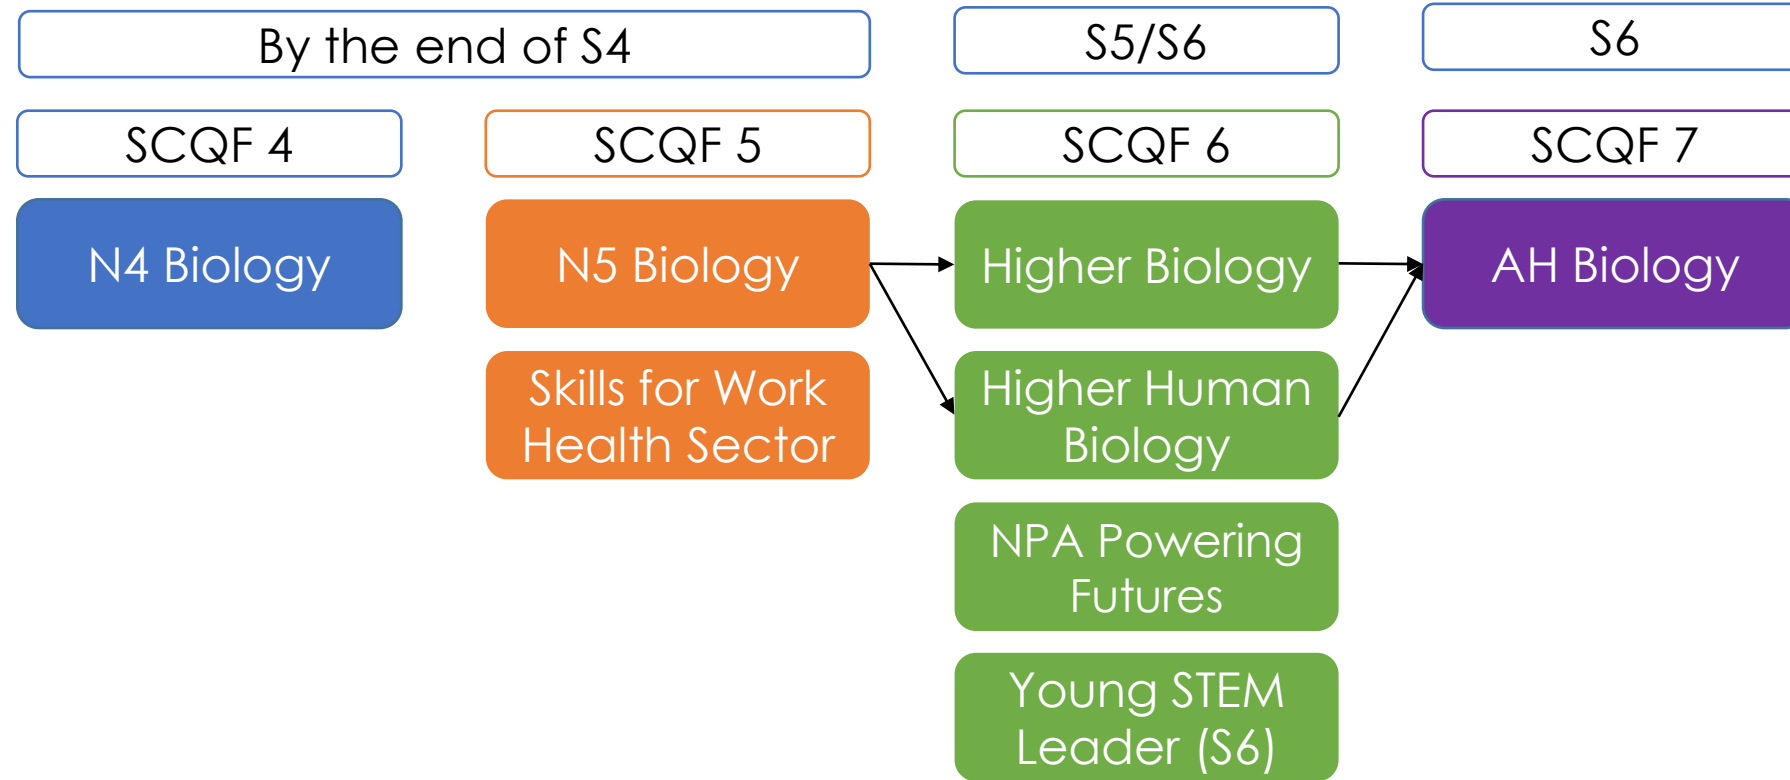

- Show the breadth and depth of our curricular offer from each department (subject to demand and timetabling).
- Highlight how pupils can progress between levels in a subject (indicated by arrows)
- Allow pupils, parents and carers to recognise the SCQF Level of each qualification offered by the school.
- Compliment our existing resources which help pupils select their Options in S3, S5 and S6.

What is the SCQF?

- Our Pupil News for w/c [17 November 2025](#) featured Pupil Ambassadors discussing the SCQF, how pupils can use it and how staff have used it to expand curricular pathways in recent years.
