

Google Classrooms and Microsoft Teams Information

Mathematics Department

The following tables show the class codes or names for the S1-3 groups for Maths.

The majority of pupils have been working on class groups all year in Maths so they have been set up since the beginning of the school year. Class teachers have continued to work on individual groups with their own pupils as they know them well and were already established in groups. Any pupil who was not part of a group during the school year was invited to join after school closure.

The codes/names for each class are shown in the tables below:
