

Before

If reading the class book, your child can tell you about the story in a sentence or two.

If reading a new book, ask your child what could the story be about after reading the title and looking at the picture.

During

Encourage your child to check what they are saying **makes sense, sounds right and looks right!**

Praise them if they self-correct or confirm by repeating words or phrases.

After

Return to a page your child read that sounded good and praise them!

Go back to a word or phrase that they problem solved and fixed.

Ask them what their favourite part was and what questions they have about the story.

Reading with children

A guide for parents and carers
