

This policy has been written by the school, building on national best practice, East Renfrewshire Council and National Guidance for Child Protection in Scotland 2014.

Convention on the Rights of the Child

Article 19: Children have the right to be protected from being hurt and mistreated, physically or mentally. Governments should ensure that children are properly cared for and protect them from violence, abuse and neglect by their parents, or anyone else who looks after them.

Article 28: Young people should be encouraged to reach the highest level of education they are capable of.

Article 29: Children's education should develop each child's personality, talents and abilities to the fullest. It should encourage children to respect others' human rights and their own and other cultures.

RATIONAL

National Guidance for Children Protection Scotland provides a framework within which agencies and practitioners at a local level can understand and agree processes for working together to support, promote and safeguard the wellbeing of children. It sets out expectations for strategic planning of services to protect children and young people and highlights key responsibilities for services and organisations.

'All agencies that deliver child services and work with children and families have a responsibility to recognise and actively consider potential risks to a child. They are expected to identify and consider the child's needs, share information and concerns with other agencies to improve outcomes for the child.'

'Safeguarding is the golden thread that runs through the curriculum. The aim is to support the development of learners knowledge, skills and resilience to keep themselves safe and protect themselves and to develop an understanding of the world so that they can respond to a range of issues and potential risky situations arising throughout their lives.'

Introduction

Child Protection – legal issues

- Child abuse is a criminal offence which can involve prosecution in the Criminal Courts
- Child abuse is the concern of the Child Protection system
- In the absence of criminal prosecution or conviction, the Children's Hearing system can act to protect a child

In St. Mark's Primary, we follow East Renfrewshire Council's Guidelines on Child Protection as outlined in their Standard Circular 57.

Standard Circular 57 details types and indicators of risk.

- Physical injury
- Physical neglect
- Sexual abuse
- Emotional abuse
- Non organic failure to thrive

If a member of staff has a concern or a child discloses information (related to Child Protection), **this information must be reported to the school Child Protection Officer immediately.**

You have a concern because of

- a specific incident, something you see or hear or hear about
- a disclosure made by a child or young person or parent/carer
- information from a third party
- adult behaviour/circumstances that may place the child or young person at risk of harm
- child/young person behaviour/circumstances that may place the child or young person at risk of harm
- a culmination of minor concerns over a period of time.

What to do if you have a concern

- Consider the wellbeing and safety of the child or young person - listen and reassure
- Be calm, don't panic.
- Act on your concern. Don't ignore.

- Don't agree to keep it secret.
- Do not interrogate but note what you observe, what you hear, what you are told. Be specific re concerns.
- Don't discuss generally with colleagues but do inform the CP coordinator without delay
- Don't feel daft – your concern might be part of a bigger picture

It's everyone's job.

'Everyone has a responsibility to protect children and young people.

Every child and young person has a right to feel safe and protected from any situation or practice which may result in harm.

Above all, the welfare of children and young people is the paramount consideration and we must work together to ensure they are protected.'
