

**St Ninian's High School**  
**Distance Learning Resources**

**St. Ninian's**  
**High School**

# Overview

Dear Parents, carers and young people,

It is our aim to ensure that regardless of circumstances that we strive to deliver the best outcomes for the young people of St Ninian's High school.

This document has been collated to support pupils with their learning whilst not being able to be within the school building.

Information is detailed for how to access resources for each department and each curriculum level within.

Teachers will be contactable via one of three main forms:

- Glow
- Microsoft Teams
- Google classrooms

## Glow

Glow is Scotland's nationally available digital environment that supports learning across the whole curriculum.

### [About Glow](#)

Glow is Scotland's nationally available digital environment that supports learning across the whole curriculum.

## Microsoft Teams

Microsoft Teams is a communication and collaboration platform that allows for workplace communications, video meetings, file storage, and assignment setting. Staff can communicate with pupil and vice versa, including providing feedback on written and practice work.

### [Using Microsoft Teams](#)

NOTE: Students accounts can be accessed using their glow username **@glow.sch.uk**

## Google Classroom

Google Classroom is a free web service, developed by Google for schools, that aims to simplify creating, distributing, and grading assignments in a paperless way. The primary purpose of Google Classroom is to streamline the process of sharing files between teachers and students.

### [Google classroom tutorial](#)

NOTE: Students accounts can be accessed using their glow username **@er.glow.scot** which differs from their standard Glow email.

Staff will endeavor to continue to make learning and teaching as innovative, creative and relative as the day to day curriculum would be if pupils were in classes.

## SUPPORT FOR LEARNING

Please find hyperlinks to 6 documents which provide useful strategies for distance learning.

The documents are:

- Support for Learning – Strategies to distance Learning
- Exam Techniques Booklet
- Getting Started with distance learning
- Social stories to support young people overwhelmed by emotions
- Home timetable example
- Blank home timetable

In each of the four booklets, there is guidance on support strategies as well as hyperlinks to other useful websites. The home timetables can be used to create a planner for your school work. You may find it helpful to keep to the timetable of your usual school day.

## Supporting Positive Mental Health

Any time of change can have an impact of peoples mental health. To access support strategies and regular advice, please go to the Promoting Positive Mental Health Website here:

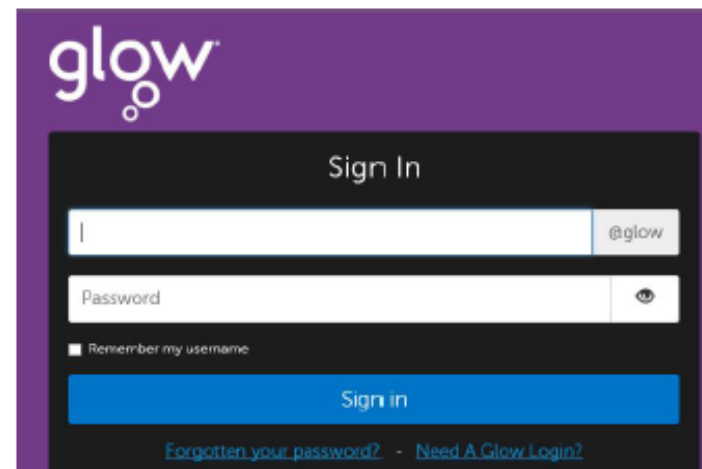

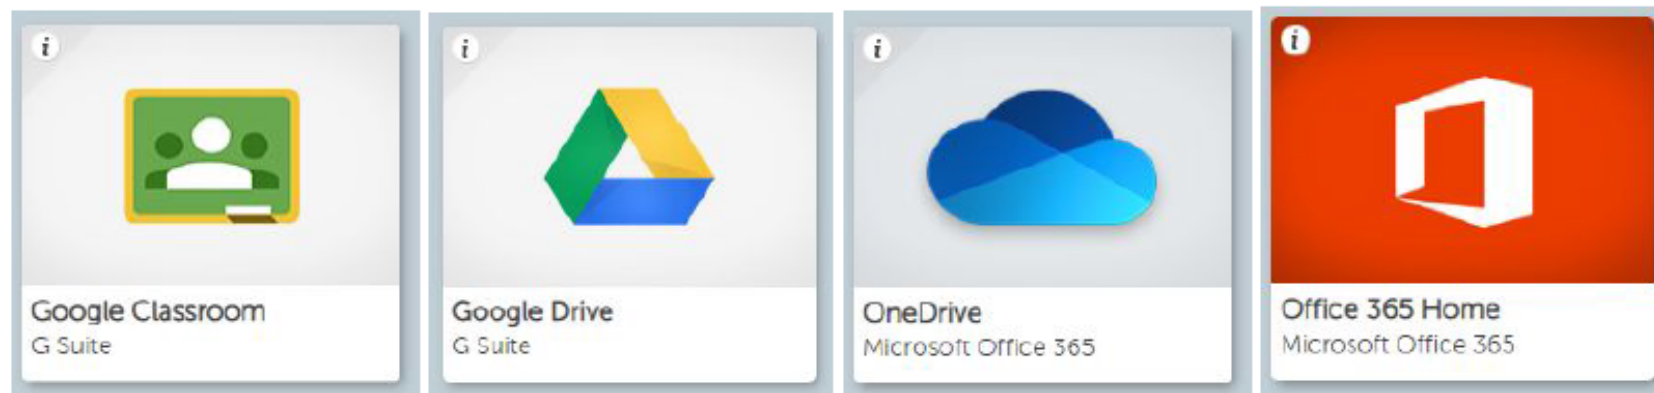

## Using Glow tools at home

### [What is Glow? Watch this overview video](#)

1. Navigate to <https://sts.platform.rmunify.com/account/signin/glow> on any internet-enabled device.

2. Your child uses their Glow login details to access the digital learning platform. Their username should be entered in the top box (for example **gw14smithjohn**) and their password in the bottom box. Your child will either know their username and password, or these details will have been provided to them by their teacher.
3. If your child has forgotten their password then you should fill in this form: [Glow password reset request](#). Within 3 hours, your child's password will be reset temporarily to **changeme1234** and then at next login your child will be asked to change their password to something else.
4. When logged in, your child has access to the same apps and platforms that they are already familiar with in school. These look the same as they do in school. These include Google Classroom, Google Drive, OneDrive and Microsoft 365 tools.

Google Classroom and Microsoft Teams are used in East Renfrewshire schools as digital classrooms, where teachers and students can communicate with each other and where assignments and other learning activities can be posted. Microsoft Teams is accessed via the Office 365 Home tile. Google Drive and OneDrive are online storage apps for files, photos and other learning resources. Files can also be shared between teachers and students in these areas.

**It is important to remember that comments in these virtual learning environments should only be between students and teachers. Parents should contact schools through the usual channels (phone or email).**
