

Primary 1 learned a lot during their visit from Bishop John.

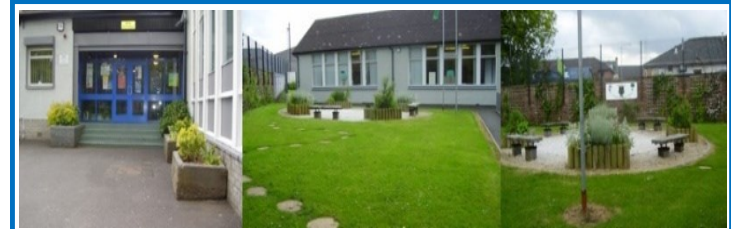

Planting with children from Neilston Primary

Primary 6 led a special assembly about The Pope Francis Faith Award

'Make a Difference Day October 2015'

St Thomas' Primary School Catholic Education Week 2016

Our School Prayer

St Thomas bless our school. We ask you to bless all of the adults and children in it. Give us the strength and courage to always do our best. Help us to show love for one another and to treat those we meet in our daily lives with care, respect and understanding. Amen

P5 Class Mass

Primary 7 working on their Pope Francis Faith Award Journals

Our Catholic school community holds Gospel values at the heart of everything we do. Catholic education provides opportunities for all young people to fulfil their potential while deepening their understanding of their faith through encounters with God.

The theme for Catholic Education Week 2016 is 'Learning to be Merciful'. When Pope Francis announced the Jubilee Year of Mercy, he reminded us that "God forgives all and God forgives always".

During Catholic Education Week, we will be providing opportunities for children to think about particular ways in which they can realise this vision of a merciful, loving God in their own lives.

At home, we would ask for your support in helping children to understand the power of forgiveness and the value of reconciliation. In school, children will learn about and engage in works of mercy, both spiritual and corporal. Spiritual works of mercy include helping those who are sorrowful, praying for the living and the dead and showing forgiveness; in essence, supporting others with their spiritual and emotional needs. Corporal works of Mercy are helping with material and physical needs such as visiting the sick or giving to charity and other acts of kindness.
