

### Literacy and English

Primary 3 will build on the sounds and blends they learned in Primary 2.

They will continue to use active spelling activities to further develop their understanding and core spelling skills. On a weekly basis we will undertake a number of tasks within the Literacy Learning experience. Weekly tasks include:

- Reciprocal Reading
- Comprehension and Grammar lessons
- Weekly news reports
  - Spelling activities
  - Imaginative Writing

### Primary 3 Welcome Back!

Dear Parents,

It has been fantastic to welcome back our lovely Primary 3 class. They have all been enthusiastic about their return and shown real willing to work hard now that we are all back together.

As a class, we have daily check-in and are working through material and resources to support our return to school. We have a dedicated Health and Well-being programme to support learner resilience and growth. We will be running the daily mile every day to help us stay fit and healthy.

### Numeracy

Over the next few weeks, Primary 3 will undertake number of interesting and challenging maths topics, including 'maths in the real world'.

We will be working independently and collaboratively and will continue to use concrete materials to support us.

Concepts covered will include:

Multiples, number bonds, symmetry and the language of maths.

There will be opportunities for outdoor learning to support the development of the children's investigative skills.

### Homework

Homework activities will be distributed on a Monday. These activities will support and consolidate the learning delivered in class.

They include: Spelling activities, Reading book, Numeracy and mathematics booklets.

Homework will be marked on a daily basis.

### Learning across the Curriculum

We will soon be undertaking our Novel study 'The Hodgeheg' to further extend our reading skills. I'm sure the children will enjoy reading this together.

This will book will work well with our Interdisciplinary Topic, 'Animals and their habitats' which will allow the children to explore and investigate different climates, living
