

Social Distancing at Thornliebank:

The story so far...

As we prepare for August, we are busy making changes to our school environment to make sure everyone will be safe.

This week, the Hub moved back to Thornliebank.
The Hub is in two rooms in the annexe building.

There is a hand sanitizing station at every entrance.
Adults and children sanitize their hands on entering
and leaving the building.

Some doors are kept open so that nobody needs to touch the door handles.

Some parts of the building are for adults and children, and some are just for adults.

The office staff are in school one at a time.

We are beginning to set up our classrooms for August. Mrs Miller and Mrs McGarvey have been putting their measuring skills to good use!

Watch this space for more developments...
