Free property registration site for mobile phones, computers, tablets, sat navs, bicycles etc.

www.immobilise.com

Immobilise is a national property register where members of the public can register their property for free using serial/IMEI numbers. If property is lost or stolen, the owner can update their items as being lost or stolen on the register. If this property is then checked by police (or 3rd Party) via the NMPR (National Mobile Phone Register - which now checks anything with a serial number and not just phones), the property and crime reference can be identified and property returned to the owner. This will also provide a line of enquiry for the police.

Immobilise is the world's largest FREE register of possession ownership details and together with its sister sites the Police's [NMPR](#) and [CheckMEND](#), forms a very effective tool in helping to reduce crime and repatriate recovered personal property to its rightful owners.

Immobilise can be used by members of the public and businesses to register their valued possessions or company assets, and exclusive to Immobilise all account holders registered items and ownership details are viewable on the Police national property database the [NMPR](#).

This online checking service is used thousands of times each day by UK Police forces to trace owners of lost and stolen property.

As a direct result of Immobilise there are hundreds of cases a week where property is returned or

information collected that assists the Police in investigating criminal activity involving stolen goods. Immobilise is also the only ownership registration service supported by all UK Police forces, the Greater London Authority, and the Mobile Phone Industry.
