

# S@S Accelerate 1

**Monday 20<sup>th</sup> to Friday 24<sup>th</sup> June 2016**

***Want to find out more about the career you would like to follow?***

***Interested in finding out what it's like to study at university?***

***Want to boost your chances of success in the future?***

Held at the University of Strathclyde, 'S@S Accelerate 1' is a week-long programme for pupils at the end of S4 and S5.

Through a series of group activities, you will be able to find out more about the career you are interested in following. There are four courses that you can choose from, depending on what you might like to study after school:

- **Electronic & Electrical Engineering**
- **Product Design**
- **Psychology**
- **Sport**

Led by current university students who will act as your mentors, you and your team will complete our exciting five day challenge programme, as well as attending career workshops and getting a chance to see what student life is like.

### **What's in it for you?**

- Find out about the different areas of the career you would like to follow
- Discover what studying and working in your chosen field is really like
- Discuss your career and academic options with professionals and university staff
- Meet new friends and work with current University students

The cost of S@S Accelerate is £125.

Comments from previous participants:

*"I think the course gave me a great insight into what university is like and also helped me work out which course I want to do after I leave school."*

*"Good opportunity to get to know more about Psychology as a course from people who have had first-hand experience. Mentors were good to speak to, helpful."*

*"I thought the sport programme was an amazing experience and has helped me a lot for the future."*

*"I thought it was a very good programme. The mentors were very helpful and I met lots of new people. I also feel better informed about what Product Design includes. Overall I really enjoyed the experience. 10/10."*

*"It is a brilliant programme for people my age. I had loads of fun and meet new people. It really sparked my interest in Engineering."*
