

Primary 6 Daily Plan

Thursday 11th June

Numeracy - Famous Mathematicians

Think about mathematics and its impact on the world, past, present and future.

Choose a famous mathematician to research. Produce a presentation about their life and their impact on the world today. They could have discovered a mathematical formula or carried out an investigation to prove a mathematical fact which has changed the way we live and work today. They may have invented an important creation, using maths, which was used in the past or now.

Remember not to cut and paste from the internet. Put everything in your own words as if you do not understand it there is a good chance that others won't understand either.

Reading and Comprehension: The Bad Beginning - Chapter 7

Please see Seesaw for a copy of the text and audio file, task resources, optional extras, and to respond to activities.
