

Shape bingo

Here is everything you need to play a game of bingo. This game of bingo uses 3D shapes you might recognise. The cards are on page 2.

pyramid	cylinder	cube
cuboid	cone	triangular prism
all edges are the same length	sphere	all faces are square
circular base	two flat ends that are circles	faces that have two long edges and two short edges
a flat base and a point at the top	a circle at the bottom with a point at the top	two flat ends that are triangles
an object that is round on all sides	no straight edges	all corners are right angles

Call out the descriptions on page 1 and mark the shapes off your card.
