Her lessons are available on YouTube and she is inspiring and encouraging many people with her passion for music. This first lesson starts with how to recognise some basic rhythms, how to clap them and how to play your name. No special equipment is required however to play your name it would be handy to have something such as a bowl and spoon to play on. The first video is a short 30 second introduction. The main lesson is 10 minutes long. The whole family can get involved in the lesson. Watch the video and have a go at playing your own names - or any other names or words!</p>
