

## Royal Scottish National Orchestra (RSNO) – Samba at Home!

Every week, since the end of March, RSNO have been producing a fun, family-friendly challenge to help keep us entertained while we stay at home.

This samba challenge is the first one they released and I found it fascinating how such a catchy and exciting piece of music can be created just by using items from around the home!

In this, easy to follow, video the RSNO percussionists show you step by step how to put together different instruments and rhythms to create a samba. There are 6 different people playing in this video, however, it would still work well with less or more people. You could choose which rhythm and instrument you like best and making try different combinations.

Enjoy having a go and have fun!
