

Primary 4 Daily Plan	Date: Tuesday 16th June
Curricular Area	Tasks
<p>Special Science Event</p>	<p style="text-align: center;">The Great Science Share</p> <p>See timetable on Seesaw and the Glow blog for special event timings.</p> <p>Visit the <i>Great Science Share</i> for a while and join in with some of the special activities, ask questions, find answers to things you've always wondered about, watch cool videos, share pictures of your own science, share your thoughts and ideas, but above all... have an excellent time!</p> <p>Afterwards, tell us about the Top 3 favourite things from your visit. You can write them, type them on a device, record a voice message or a video... or tell us in any other way you like!</p>
<p>Literacy and English</p>	<p style="text-align: center;">Skill - Spelling Revision</p> <p>Practise spelling the Unit 12 er, ir, ur words listed below:</p> <p style="text-align: center;"><i>germ, term, serve, swerve, butter, gutter, skirt, shirt, first, thirst, nurse, purse, measure, treasure</i></p> <p>Cut some paper into squares of about 3cm by 3cm (or whatever size you find easiest. It might be fun to make gigantic ones for the garden!). Make one of your words by writing one letter on each square. Now jumble the letters and see how quickly you can put the word back together correctly. Maybe you could time yourself and try to beat your own time or challenge a partner! When you try the next word, you may be able to reuse some of the letters you already made. For an extra challenge, why not mix two or three words up together and see how quickly you can reassemble them all!</p> <p style="text-align: center;">Skill - Grammar: Prefixes</p> <p>This week we are going to look at prefixes. Prefixes are little bundles of letters we can add to the beginning of words to change their meanings.</p> <p>Visit this webpage to find out more and try out some prefix activities. https://www.bbc.co.uk/bitesize/topics/z8mxrwx/articles/z9hjwxs</p> <p>Now try the task that we have posted on Seesaw. You do not have to complete all of the questions. If it gets too hard it is OK to ask for help or just stop where you are. Answers will be posted at 3pm as usual.</p>

<p>Numeracy and Maths</p>	<p style="text-align: center;">Skill - Choosing and Using Calculations</p> <p>Log on to Education City, click the Homework icon and choose the Mild, Hot, or Extra Hot options to find today's games. Choose the level that you think suits you best, or have a go at more than one level! <u>(If you have forgotten your login or password for Education City, your teacher will be happy to remind you!)</u></p> <p>The activity sheets to go with the games are posted on Seesaw for you. Answers for all tasks will be posted at 3pm.</p> <p style="text-align: center;">If you would like to have even more fun with maths, you could play some games on Sumdog too!</p>
<p>Health and Wellbeing</p>	<p style="text-align: center;">P.E. - Fitness</p> <p style="text-align: center;">https://www.youtube.com/watch?v=9WgkiB-GQMI</p> <p>Try these exercise sequences created by different instructors. When you have done that, choose your favourite moves and create your own new sequence for someone else (or yourself) to try inside or outside in a safe place with plenty of room to move without hurting yourself.</p>
<p>Skills to develop this week</p>	<p>Keep your bedroom tidy this week. Make sure toys and books are put away and your bed is made. If you have younger siblings, you could help them too.</p>
