

Accessing Google Classroom

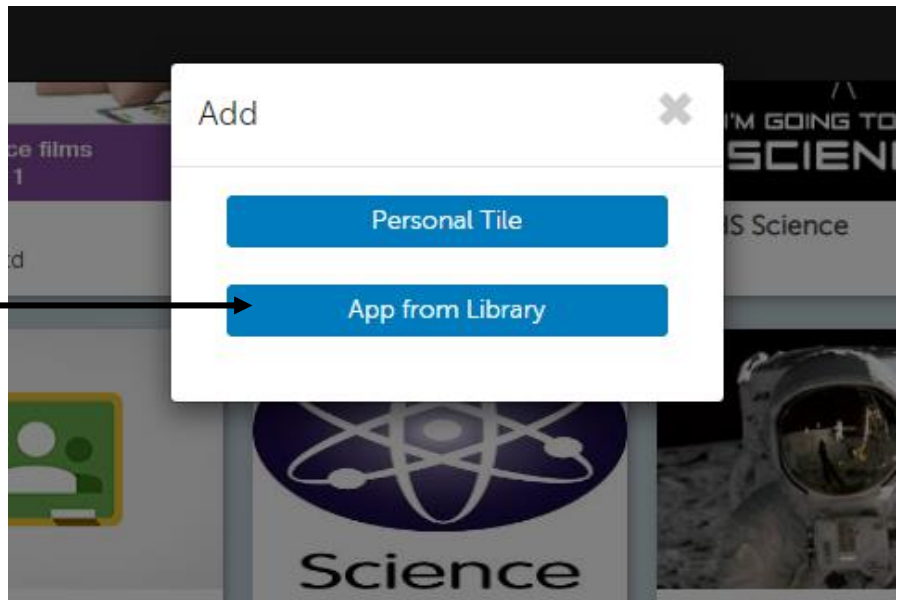

Log into Glow using your Glow username and password, just like you use to log into the Chromebooks at school.

Make sure you are on 'My Launch Pad'

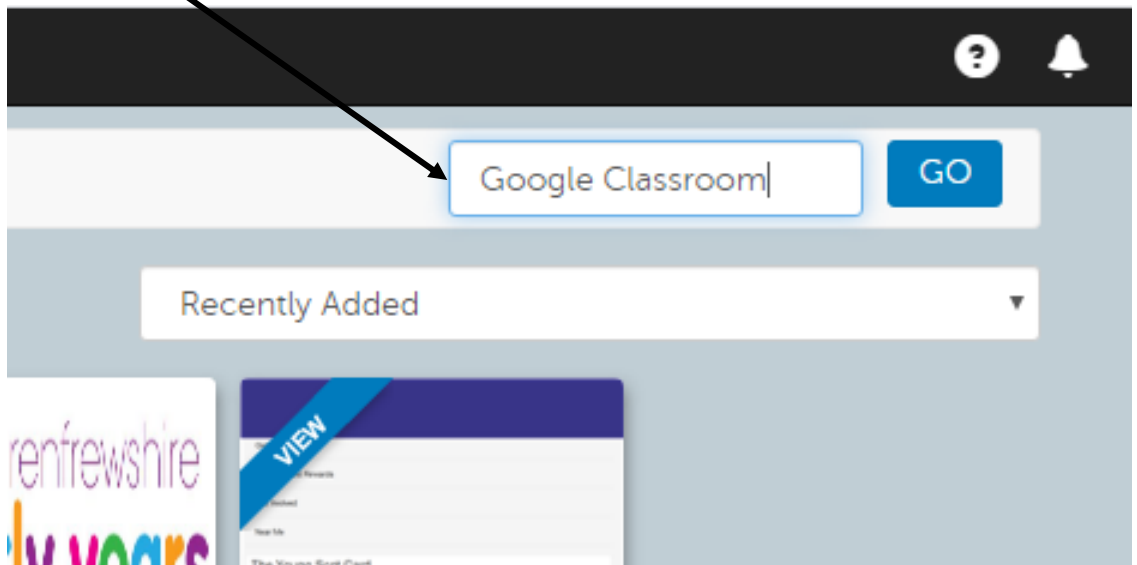

Click the blue 'Add' button on an empty tile

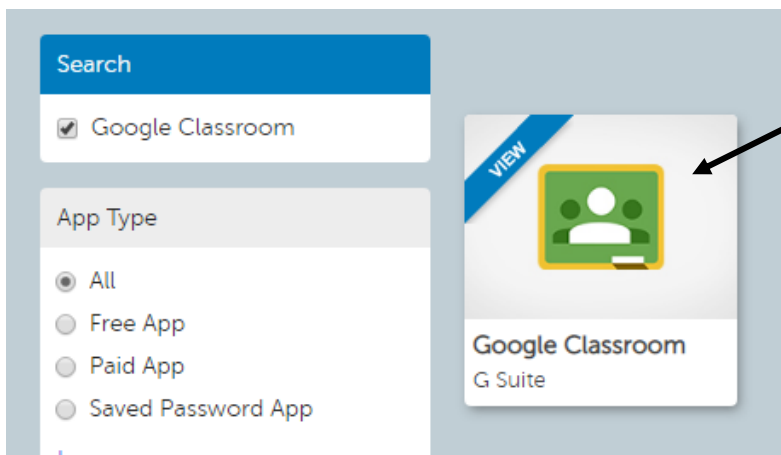

Click on 'App from Library'

Type 'Google Classroom' into the search box and click GO

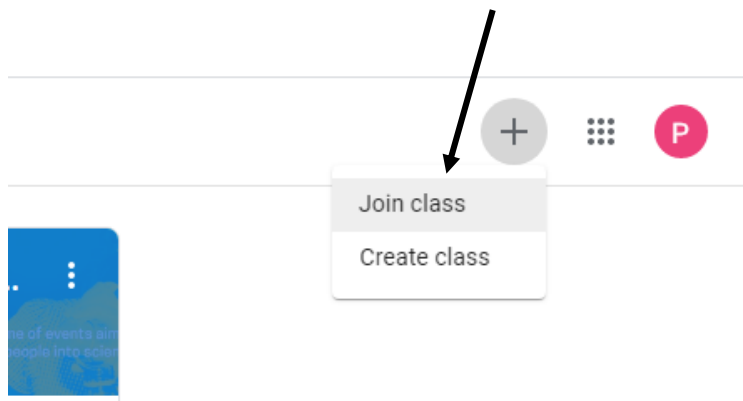

Click on the 'Google Classroom' tile and there is an option to 'Add to Launchpad' – click on this

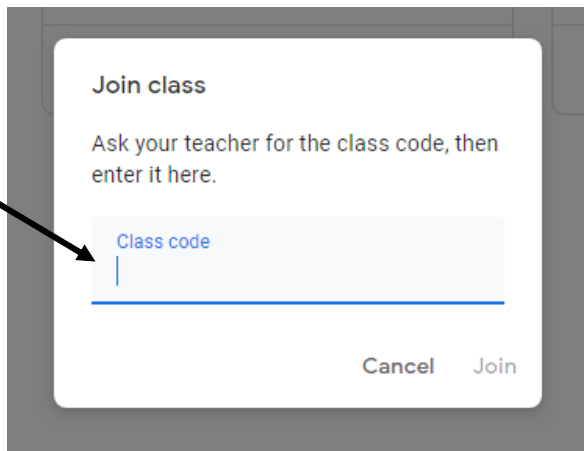

When you go back to 'My Launch Pad' there will be a Google Classroom tile

Click on the tile to go in to Google Classroom

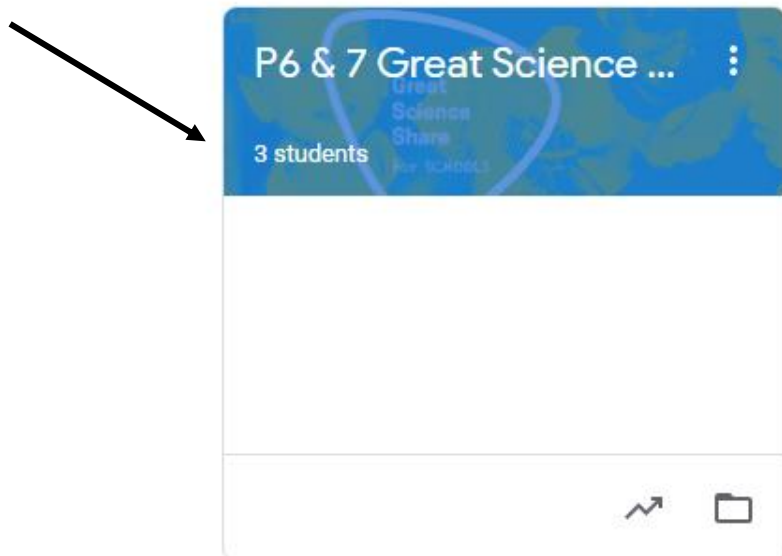

At the top right hand corner is a + sign, click on it and then click on 'Join Class'

Enter the classcode you have been given, this is 7 characters long and a mixture of numbers and lowercase letters.

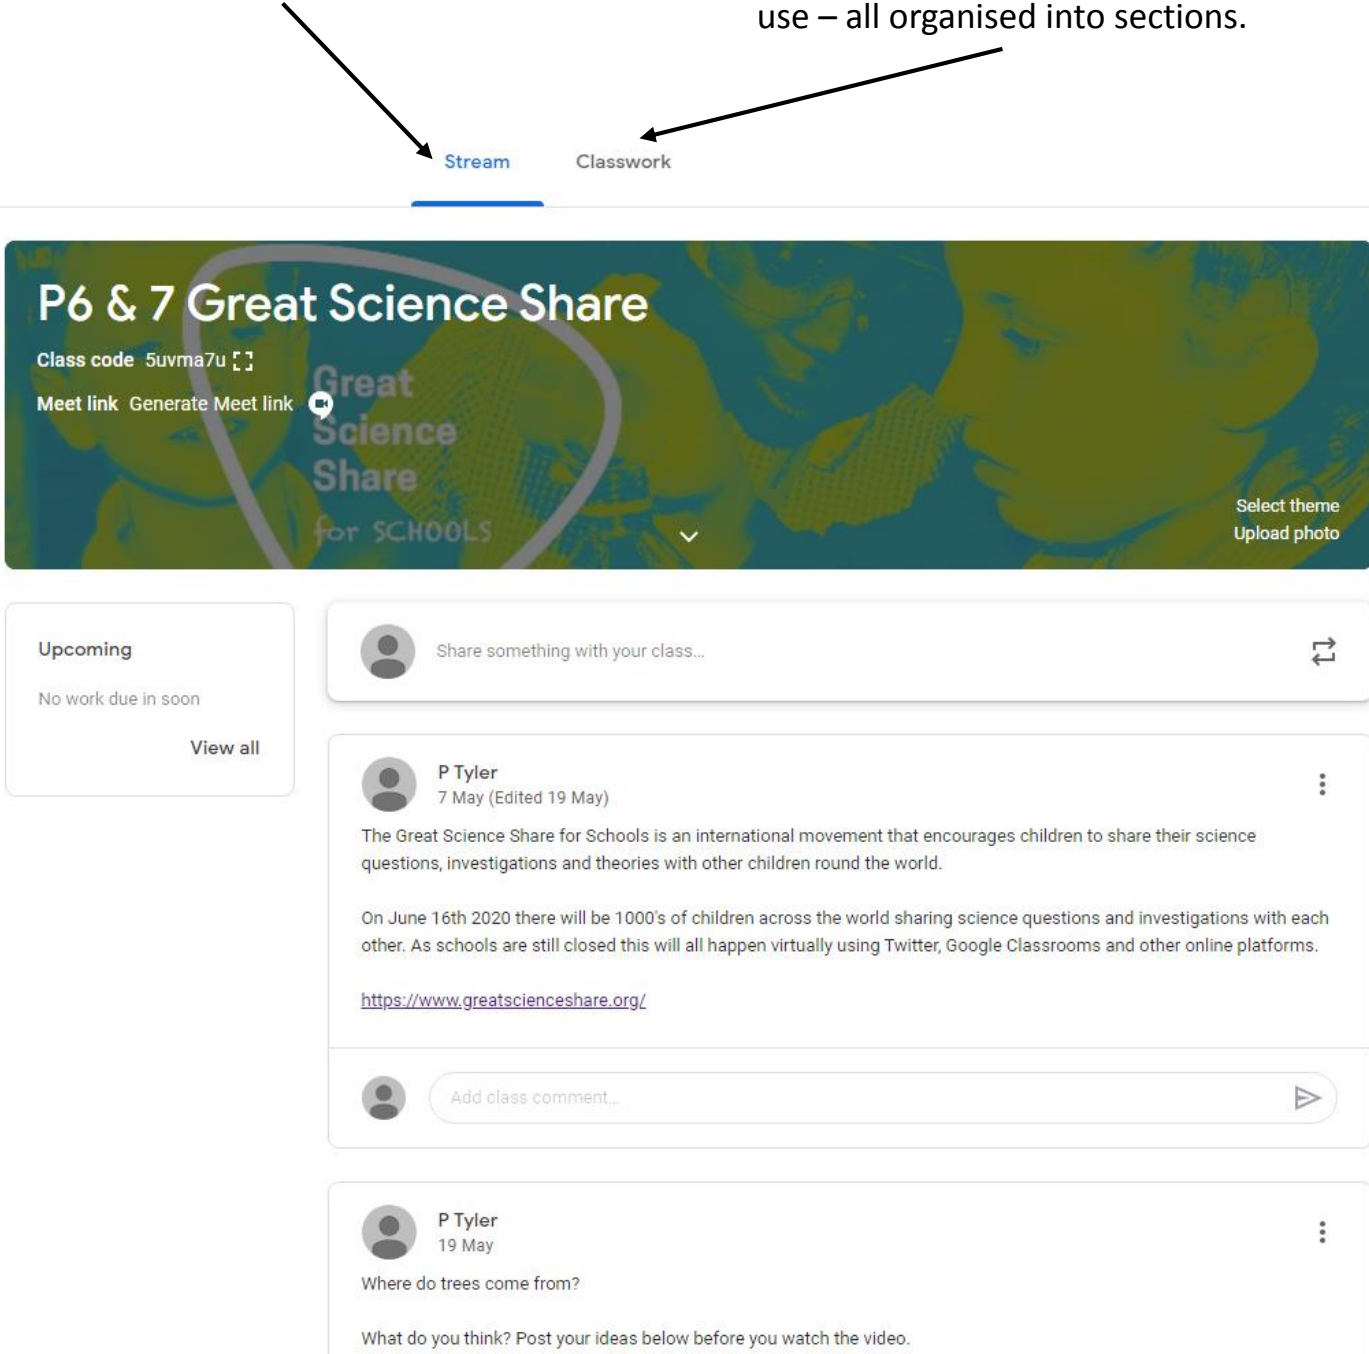

The Great Science Share classroom will now appear, click on it to enter the classroom.

The classroom will look like this.

The stream shows all the activities that have been posted and all the responses.

In Classwork you will find the activities that have been set, resources for you to use – all organised into sections.

Google classroom is designed so you can interact with each other, share ideas and comment on each others work.

The classroom admins will be able to see all of your posts so please be mindful of what you are posting and that everyone will see it.
