

**It's Game Time! And some other ideas**

I've been enjoying the RSNO family challenges and I thought this was an energetic and fun one to try for this week. Watch the video and see if you can keep up with the movements... <https://safeYouTube.net/w/jx5J>

If you are looking for some music themed activities to do over the summer break here are some ideas:

- Music themed puzzles from The Berlin Philharmonic Orchestra:  
<https://www.berliner-philharmoniker.de/en/education/projects/against-boredom/>
- Try having a look at the list of links from Scottish Association for Music Education:  
<http://same.org.uk/resources/&1586798582820-24687f8b-03c3>
- Chrome Music Lab has some fantastic resources for experimenting with music and making up your own songs. It is great fun!  
<https://musiclab.chromeexperiments.com/Experiments>
- Make a family summer playlist. What songs do you like to listen to on a sunny day? Some songs are just made for listening to in the sunshine! Each person in your house could choose their favourite summer songs.

I wish you all a relaxing summer and will leave you with a song that I would like to include on my family summer playlist...
