

Reading from a Bar Graph

This bar graph shows what a number of people like to do in their leisure time.

Be able to interpret information from a bar graph.

Notice that **3** people like to go bowling.

Exercise 3

1. From the **bar graph** above :-

- How many people like to go to the ice rink ?
- How many people like to go to the cinema ?
- How many people like to go swimming ?
- How many people like to go to the gym ?
- What is the **most** popular thing to do ?
- Where is the **least** popular place to go ?
- How many **more** people chose the cinema than the ice rink ?
- How many people were asked in **total** ?
- How many people did **not** choose to go to the cinema ?
