

Name: _____

Rounding to the Nearest Ten

Round each number to the nearest ten.

34 - _____

91 - _____

86 - _____

25 - _____

72 - _____

53 - _____

Star Numbers

Which two star numbers round to 40?

_____ and _____

Which two star numbers round to 30?

_____ and _____

Write 4 numbers that round to 20

5 2

1 2

Write **True** or **False** for each statement.

27 rounds to 20. _____

8 rounds to 10. _____

94 rounds to 90. _____

Remember when rounding to the nearest 10, look at the number in the **units** column.

If it is 4 or less you round down.

If it is 5 or more, round up to the next 10.

Name: _____

Rounding to the Nearest Hundred

Round each number to the nearest hundred.

264 - _____

85 - _____

545 - _____

239 - _____

350 - _____

834 - _____

Bubble Numbers

Which two bubble numbers round to 700?

_____ and _____

Which two bubble numbers round to 600?

_____ and _____

Write **True** or **False** for each statement.

765 rounds to 700. _____

829 rounds to 800. _____

109 rounds to 100. _____

Remember when rounding to the nearest 100, look at the number in the **tens** column.

If it is 4 or less you round down.

If it is 5 or more, round up to the next 10.

We can use rounding to help us **estimate** the answer to some calculations. This doesn't give us an exact answer but a rough idea of the correct answer. This is sometimes helpful when you are shopping or have to do a calculation really quickly! 😊

Round both numbers to the nearest 10, then perform the calculation. Here are a few examples:

$$\begin{aligned} 23 + 48 \\ 20 + 50 \\ = 70 \end{aligned}$$

$$\begin{aligned} 56 + 17 \\ 60 + 20 \\ = 80 \end{aligned}$$

$$\begin{aligned} 34 - 12 \\ 30 - 10 \\ = 20 \end{aligned}$$

$$\begin{aligned} 75 - 25 \\ 80 - 30 \\ = 50 \end{aligned}$$

1. $43 + 21$

2. $38 + 32$

3. $87 + 12$

4. $92 - 27$

5. $44 + 81$

6. $78 - 57$

7. $45 + 39$

8. $51 - 39$
