 <p>Numeracy & Mathematics</p>	<p><u>Family Numeracy and Maths Homework Challenge</u></p> <p>Families can choose one activity (or more if you wish) from the grid and work on this together over the next two weeks. How you record and share your homework is up to you! There are some suggestions on the grid but please feel free to be as inventive as you wish. This homework will last two weeks.</p> <p>On Friday 4th October, the eldest child in each family should bring in their family homework and the pupils will get a chance to share their activity with the school community. The homework should be carried out as a family and each activity can be simplified or extended to allow everyone to take part.</p> <p>There are lots of real life challenges to allow our pupils to see the benefit numeracy and maths has on our everyday life. These activities are designed to be fun, active and engaging for all our learners. It will not only promote their numeracy, but it will also develop their problem solving, creativity and collaboration skills.</p> <p>Please share your learning activities with us on twitter! @KirkhillPS and use our #s #kpsAchievements #kpsMathsWeekScotland2019 #MathsWeekScotland</p> <p><u>Spelling</u></p> <ul style="list-style-type: none"> Use your 'Spelling Menu' to learn your 'ay' words, this is the digraph we'll be learning during the week beginning 30th September :)
