

Maidenhill Primary & Nursery Class- School Improvement Plan 2020-2021

What will we do?

We will narrow any learning gaps in Literacy caused by the Coronavirus pandemic and improve outcomes in this area for all children.

We will narrow any learning gaps in Numeracy and Mathematics caused by the Coronavirus pandemic and improve outcomes in this area for all children.

We will help develop the emotional health and wellbeing of our children, staff and families.

How will we do it?

By developing learning, teaching and assessment approaches linking core reading and writing skills.
By targeting support where most needed.

By developing learning, teaching and assessment approaches linking core numeracy skills to concrete, pictorial and abstract understanding.
By targeting support where most needed.

By developing approaches and guidance to promote positive relationships. By developing a skills pathway to enhance the emotional wellbeing of our school community.

How will we know we are successful?

The percentage of children reaching expected levels of progress in Literacy remains consistent or actually improves on 2019/ 2020.

The percentage of children reaching expected levels of progress in Numeracy & Mathematics remains consistent or actually improves on 2019/ 2020.

Almost all children and families report that the school has helped them to feel positive about their emotional wellbeing and their school experience.
