

Nursery Newsflash!

Play and Learning

As telling stories on the light box proved to be very popular, it was updated with Halloween characters and then again to allow children to create their own fireworks displays. Children have had the opportunity to use the 'autumn treasures' they collected in many different ways, such as creating transient art and to investigate textures. Children have been able to create their own Rangoli patterns as part of their learning about Diwali. There has been a big focus on our daily routines and making links between these routines and times of the day. In turn, this had led to an interest in the sky and in space.

Ideas for Play and Learning at Home

- Using technology to take photos of the sky at different times of the day/night.
- Using dolls or figures to play out daily routines, for example, getting a baby doll ready for bed.

The Nursery Fund

We appreciate all contributions that parents make to the Nursery Fund. This money allows us to buy items which enhance the children's play and learning within the nursery. Examples of such items include: flour, oil and food colouring to make playdough; shaving foam, rice and pasta for sensory experiences and pumpkins for Halloween. The pumpkins served as decorations and provided opportunities for motor skills development. The Nursery Fund is also used to buy food items such as crackers, breadsticks and rice cakes to provide more options at Snack Time. If you would like to contribute to the Nursery Fund, you can do so through ParentPay.

Extended Hours Evening Walks

In the coming weeks, we will be taking those children who attend nursery for extended hours out for evening walks. We will let you know the exact dates ahead of time to ensure that pick ups can be coordinated to allow for the walks.

A Look at our Learning.
