

# Primary 3alpha's Classroom News

## March 2022

### What have we been up to in Primary 3a?

In literacy, we have really enjoyed reading and discussing 'Harry Potter and the Philosopher's Stone' together this term. We have also been challenged with tricky texts in our reading groups. We have used these fiction and non-fiction texts to further develop our reading skills. When writing, we really loved making comic strips after exploring the features of this interesting type of text. Mrs Thomson thought they were fantastic!

In maths, we have been extremely busy measuring capacity and area, multiplying and dividing, finding and comparing fractions of shapes and amounts... the list goes on! We have also explored a variety of mental arithmetic strategies and applied them when solving problems. Mrs Thomson even challenged us to some mathematics competitions... and we won!

### Learning Across the Curriculum

We have 'visited' Spain, France, Australia and Japan and compared them to Scotland. We used our digital skills to explore these places and their features.

We have also explored our feelings and emotions, sharing what we have learned through drama. In Music with Mrs Lyall, we have explored the story of 'Peter and the Wolf' and the instruments used to portray different characters. Mrs Thomson is always so impressed with our enthusiasm!

In PE, we have worked hard to choreograph and learn a dance together. We are almost ready for our end of term Primary 3 dance off!

### Coming Up Next Term...

- Learning about inventions and their inventions (as well as creating some of our own!)
- Continuing to develop our literacy and numeracy skills across the curriculum
- Sports' Day preparation
- Lots of fun, play and learning!

### Things to Remember

PE KITS are needed on Tuesdays and Thursdays.

HOME LEARNING is shared on Google Classroom every Tuesday and is due the following Monday.
