

Primary 3 Bravo Newsletter

March 2022

We have been learning about lots of fun topics in Primary 3B this term

Mrs Allan joined our class in January, along with lots of new boys and girls too! We have really enjoyed welcoming everyone to Maidenhill Primary School and it has been lovely to see everyone making new friends and settling in so well.

This term has been full of lots of exciting days and events! The boys and girls really enjoyed learning all about Chinese New Year and celebrating the Year of the Tiger. We had a wonderful time celebrating pancake day with fraction pancakes, yum! We dressed up and shared our favourite stories on World Book Day too. Miss Guthrie dressed up as Harry Potter and Mrs Allan was Matilda for the day. We had so much fun celebrating our love of reading together.

The following pages have been written by the boys and girls themselves. We hope that you enjoy reading about all the things they have been working on together this term!

Miss Guthrie and Mrs Allan

By Maria, Shazain, Callum E, Amy, Zoya and Lyle

Literacy

We have been learning about homophones, these are words that sound the same but that mean something different. We have been learning lots of new spelling rules by playing games outside like hopscotch spelling, spelling tennis and other games too! We have been reading for enjoyment with our new library books to our hearts content! We have been learning the main idea of a text, we are literacy detectives!!

Maths

The Adding group have been learning their 7 times tables and 6s. We have been learning about area too! The Subtractors have been learning about fractions and the ten times tables. The Dividers have been learning about bar graphs and made our own surveys! The Multipliers have been working hard on their '5-a-day', it's our favourite target! We have been learning about quarters too and had a Teddy Bears picnic in class!

We all have fun learning maths!

By Benjamin, Olivia C, Margulan, Awais, Felicity and Michael

By Ayma, Robyn, James, Jessica H, Aulay and Yahia

PE

At PE we have been doing tennis, dancing and basketball. We really loved learning different balances and rolls in gymnastics!

We are now learning to play netball and we have practised our chest passes. We love playing team games together!

Wider Learning

We have been learning about emotions and Inside Out. We have been trying to make some paper mache floating heads that look like our emotions! Some of our balloons sadly didn't make it, but we still had lots of other fun art activities using colour wheels and making our own colours using paint to represent our emotions.

For Chinese New Year, we researched the Year of the Tiger and created some information posters about tigers too. ROAR!

By Martiya, Lucas, Erika, Jessica G and Monisha

Science

We have been learning about germs, finger knitting to make bracelets and the phases of the moon. Some people only have a birthday once every 4 years, if their birthday is on a leap year - February 29th! We also learned about the different seasons of the year.

By Daniel, Khadijah, Ismail, Alex and Calum M

Art

We have been painting Inside Out balloons and really enjoyed drawing the characters from Inside Out using Art for Kids hub videos to help us. We also did paper mache and we made inside out puppets using lollipop sticks, glue and fabric.

We made a collage of a tiger for Chinese New Year using cut up pieces of paper. We also made pancake posters in groups and enjoy maths art activities too. We all love it!

By Sofia, Lexi, Jasmine, Abigail and Flavius

Murray's Corner

I have had so much fun having sleepovers at your houses over the weekends! I have had some really exciting adventures but most of all I have loved all the cuddles and stories at bedtime too. Thank you so much for taking such good care of me. I am always on the lookout for lovely manners, kind friends and people who are trying their very best. I wonder who I will be visiting next??

What's Next?

Next term we will be continuing to develop our maths skills covering a wide range of topics from time to diving. In literacy we will be moving on to imaginative and persuasive writing.

Wider learning topics are chosen in consultation with the children, so watch this space to hear about the exciting things we will be learning about together soon!

In the meantime, please keep reading for enjoyment at home and keep an eye on Google Classroom for our home learning activities.

Thank you for your support!

By Miss Guthrie and Mrs Allan
