

Wednesday 1st November 2023

Here are some exciting learning experiences that you can do even while you are at home.

Language and Literacy

A B C D

We are learning to identify sounds.

Can you find toys in your house beginning with any of the sounds below:

a, e, i, o, u

Numeracy and Mathematics

We are learning to recognise numbers.

Go on a number hunt.

Go out for an Autumn walk and point out any numbers that you can find in the environment around you. This could be on houses, signs, cars etc. For a challenge you could use sticks, stones and other natural resources you see on your walk to make the numbers as you find them.

Health and Wellbeing

We are learning about healthy and unhealthy foods.

With an adult can you make a healthy snack. Talk to your child about healthy and unhealthy foods. Explain why a food is healthy or unhealthy and identify some healthy snacks in your house.

Expressive Arts

We are learning to print.

Go outside and find some leaves. Talk to your child about the different shapes, colours and sizes. Leaves could even be put in order smallest to largest. Paint the leaves and print them onto the page to create a picture.
