

Tuesday 26th September 2023

Here are some exciting learning experiences that you can do even while you are at home.

Language and Literacy

Read a book together.

Ask your child to identify the title, spine, front cover and blurb on a book. Ask them if they can predict (guess) what might happen. Finally, ask them if they like or dislike the book.

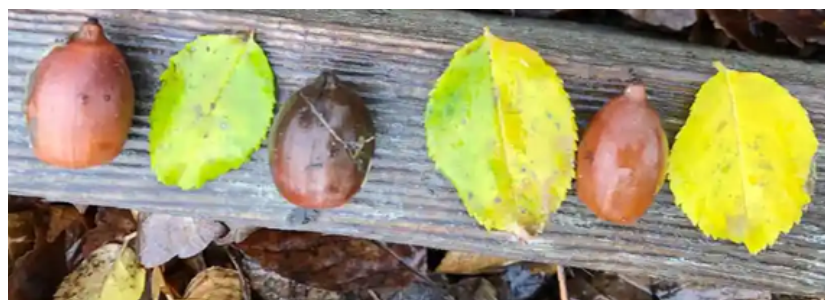

Choose a book at home or click the link below.

Numeracy and Mathematics

We are learning about patterns.

Ask your child to make some patterns using natural items such as sticks, leaves, stones etc.

or try to complete the patterns in the game linked below.

<https://www.topmarks.co.uk/ordering-and-sequencing/shape-patterns>

Health and Wellbeing

We are learning to balance.

Try some yoga.

Expressive Arts

We are learning to mark make and stick.

Go outside and collect some leaves. Can you stick them to the back of the hedgehog? Now colour in your hedgehog's face.

Ask your child what colours they can see on the leaves.
