

## February in Primary 1 Our Learning Journey

The month of January has been a very exciting start to our New Year. We explored New Year in a different culture for the Lunar Year making dough dumplings, tasting sauces, creating lanterns and practised writing in Chinese. Next, we explored our new learning expedition 'Life Beyond Land'. P1 are curious about life in the ocean and have enjoyed looking at the learning opportunities this affords. We were very fortunate to be able to visit the Science Centre. This acted as a catalyst for our curiosity, imagination, creativity and problem solving skills. In the Discovery Room we looked at creating boats that might float in our water trough. In the Creative room we have been making our ocean animals out of clay. In our Social Room we have been developing our oracy skills through storytelling in our puppet theatre.
