

# NOVEMBER AND DECEMBER

## Health & Wellbeing

We have been talking about what to do in an Emergency situation and who we should contact.

We have been practising Mindfulness in the classroom and thinking about our feelings. We enjoyed reading The Colour Monster to identify a range of emotions. In Outdoor Learning, we loved abseiling the super steep hill and creating some beautiful Christmas crafts using all sorts of natural materials! We performed so well in our Christmas Nativity and had a blast at the Christmas Fayre!

## Literacy

We have enjoyed writing a variety of personal and functional pieces. We wrote our letters to Santa and directions for how to properly brush our teeth! We have been making our own Christmas cards and reading secret notes from our naughty class elf, Eddie!

## Maths & Numeracy

We have been partitioning numbers into tens and units. We have been revising time to half past and o'clock and recognise the difference between analogue and digital clocks. We have been learning to follow and write directions, using various types of maps to do this. We have recently been introduced to symmetry and symmetrical patterns.

## RERC

We have been learning about the story of the Nativity. We have been talking about the Three Wise Men and their gifts of gold, frankincense and myrrh. We celebrated Saint Andrew's day and talked about his life and death. We have created a grateful jar in our classroom and write one thing each day we are thankful for. We have been opening our Advent calendar every day and taking part in the Travelling Crib.
