

P2B January 2023

Life Beyond Land

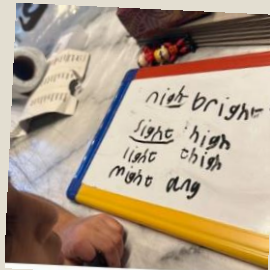

Our new topic focus in Primary 2 is 'Life Beyond Land.' We have been exploring many ideas and answering lots of our BIG and little questions, such as:

1. Are we alone?
2. What is lightning made of?
3. What's in the sky?
4. How did we get here?
5. What's beneath us?

Literacy

We've enjoyed lots of active learning activities to help us remember our tricky words and practise our weekly spelling rules. We enjoyed inventing our own character and describing their special power and this week, we wrote a shopping list. We continue to take part in guided reading and enjoy daily opportunities for independent reading too.

Maths & Numeracy

We have been working on addition and subtraction of numbers to 100. We are enjoying taking part in our daily Number Talks to practice our Mental Math strategies, ensuring we feel confident when we are working with numbers. We have focused on money, recognizing coins and notes and calculating change. We have also looked at currency in different countries for Languages Week, and have been budgeting too.

RERC

We have been learning about God's love for our uniqueness and why we are each made different. We have discussed the wonderful creation of Planet Earth and thought more about enjoying time in Nature. We will learn more about The Holy Family and their roles and have set up a Prayer area in our classroom to make sure we say Thank you to God each day for something we are grateful for. We look forward to our journey to Easter.
