

# P2B May 2023

## What Matters To Me

We will be finishing our What Matters to Me topic very soon. We have been focusing on what is important to us in our lives and asked and answered a variety of BIG and SMALL questions to find out more about ourselves and one another!

## Literacy

We wrote about how much fun we had during Sports Day as well as a short creative story about the top ten rules for being a successful superhero! We continue to practice our weekly sounds and our tricky words before we finish in Primary 2.

## Maths & Numeracy

We have been working on measurement, using inches, metres and cm as well as what we use to measure weight. We continue to work with numbers to 100 and beyond and have revised telling the time using both analogue and digital clocks. We made a big birthday bar chart using lots of materials and bright colours to display on our learning wall.

## RERC

We prayed to Mary in May and said the Rosary using our Rosary beads. We are working through our God's Loving Plan booklets and have recognized the symbols of baptism as well as other important church artefacts.
