Dear Colleagues,

With the continuing pressures on the health and care sector, we are seeking to boost our Homecare Reablement Worker numbers within our Care at Home team to provide extra resilience in our service.

I recognise that the part time and/or bank staff basis options we can offer with these roles can make them particularly appealing for parents/guardians and would be grateful for your support in publicising our recruitment campaign with your parent/guardian population.

The attached leaflet contains full details of the roles and the following link may be useful to anyone interested in applying www.eastrenfrewshire.gov.uk/home-care

Thank you in advance for your support.

Yours sincerely,

Lee McLaughlin
Head of Adult Services: Communities and Wellbeing
