

Netherlee Primary School and Nursery Class Improvement Plan 2023-2024

Everyone Attaining

- We will provide new and exciting teaching and learning ideas in Reading and will focus on the children who require the most support.
- We are working on the teaching, learning and assessment of Talking and Listening skills to make sure they are of a high standard.
- We will use different information to improve how boys and girls learn in Maths, provide support to children who speak another language and also support to those who find learning difficult.
- We are working together with parents and carers to encourage them to take part in their children's learning across our school and nursery.
- We share helpful information with parents to make sure we support their children, in the right way for them, across our school and nursery.

Everyone Achieving

- We are working to make sure that the learning suits all children and that they are supported by taking away any difficulties they have to their learning.
- We are going to develop how we record all children's learning, progress and achievements.
- Our staff are nurturing to all our children and support their health and wellbeing.
- We will invite families of children who require extra support, into school and nursery, so they can meet each other and share ideas and information.
- We are making sure that all staff and parents know how to keep children safe online.
- We are continuing to learn from each other by sharing our teaching ideas and talking about the children's experiences and how we can make them better.

Excellent Experiences

- We are making sure excellent learning is taking place every day in our school and nursery.
- We are continuing to encourage children to lead their own learning at all stages of the school and nursery.
- We will build upon the success of Diversity Month by encouraging more parents, carers and local businesses to be involved.
- We will work hard to include families from all different races and cultures in all educational experiences.
- We are working hard to teach children about the world of work through Community Learning. We will reach out to businesses to help us with this.
- We will work alongside and involve older generations in our children's learning.
