Annual Data Check

Quick Guide
for Parents

This guide will show you how to:

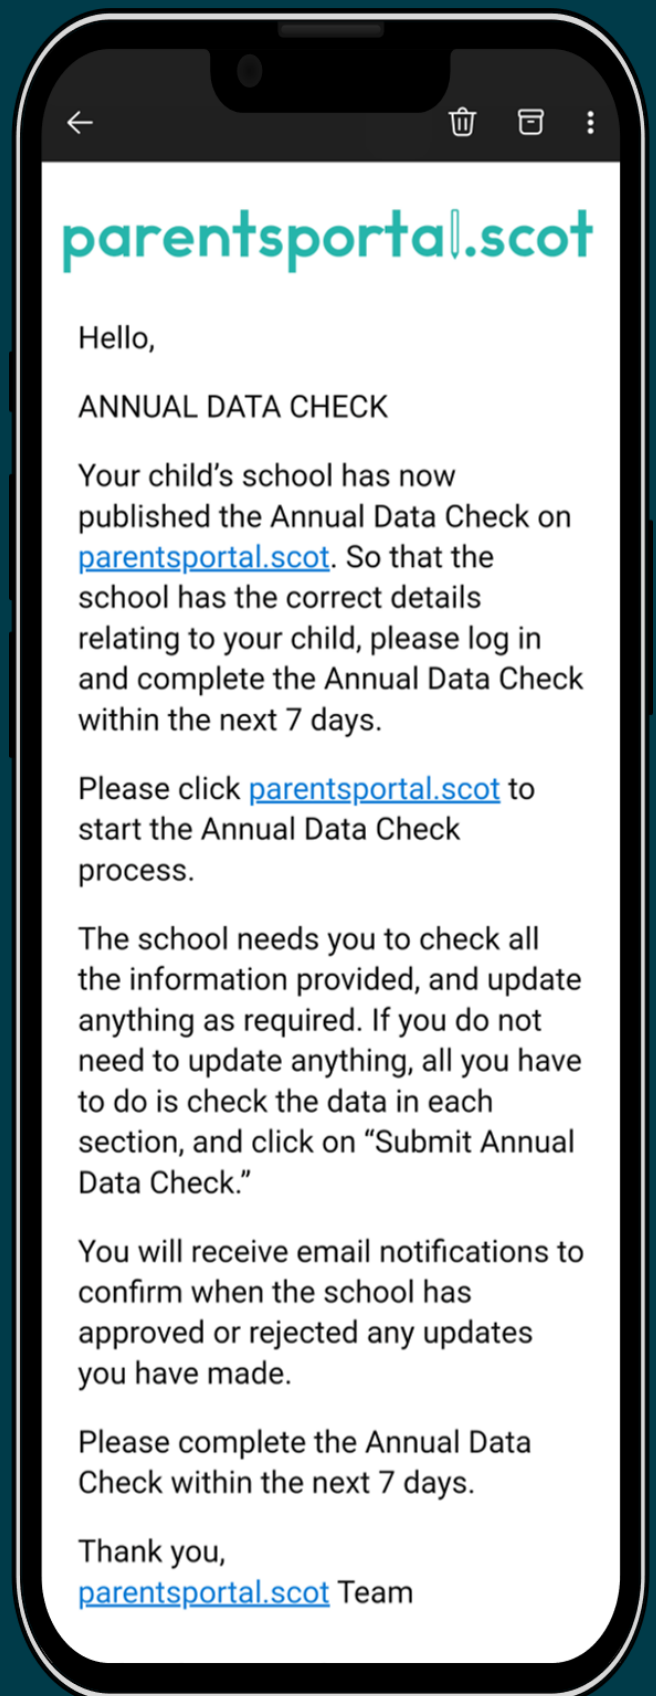

1. **Complete an Annual Data Check as a Main Contact**
2. **Edit Your Details as a non-Main Contact**

When your child's school wants you to complete the Annual Data Check online, you will receive an email that looks like this...

You'll also see a notification in the parentsportal.scot app if you have them enabled.

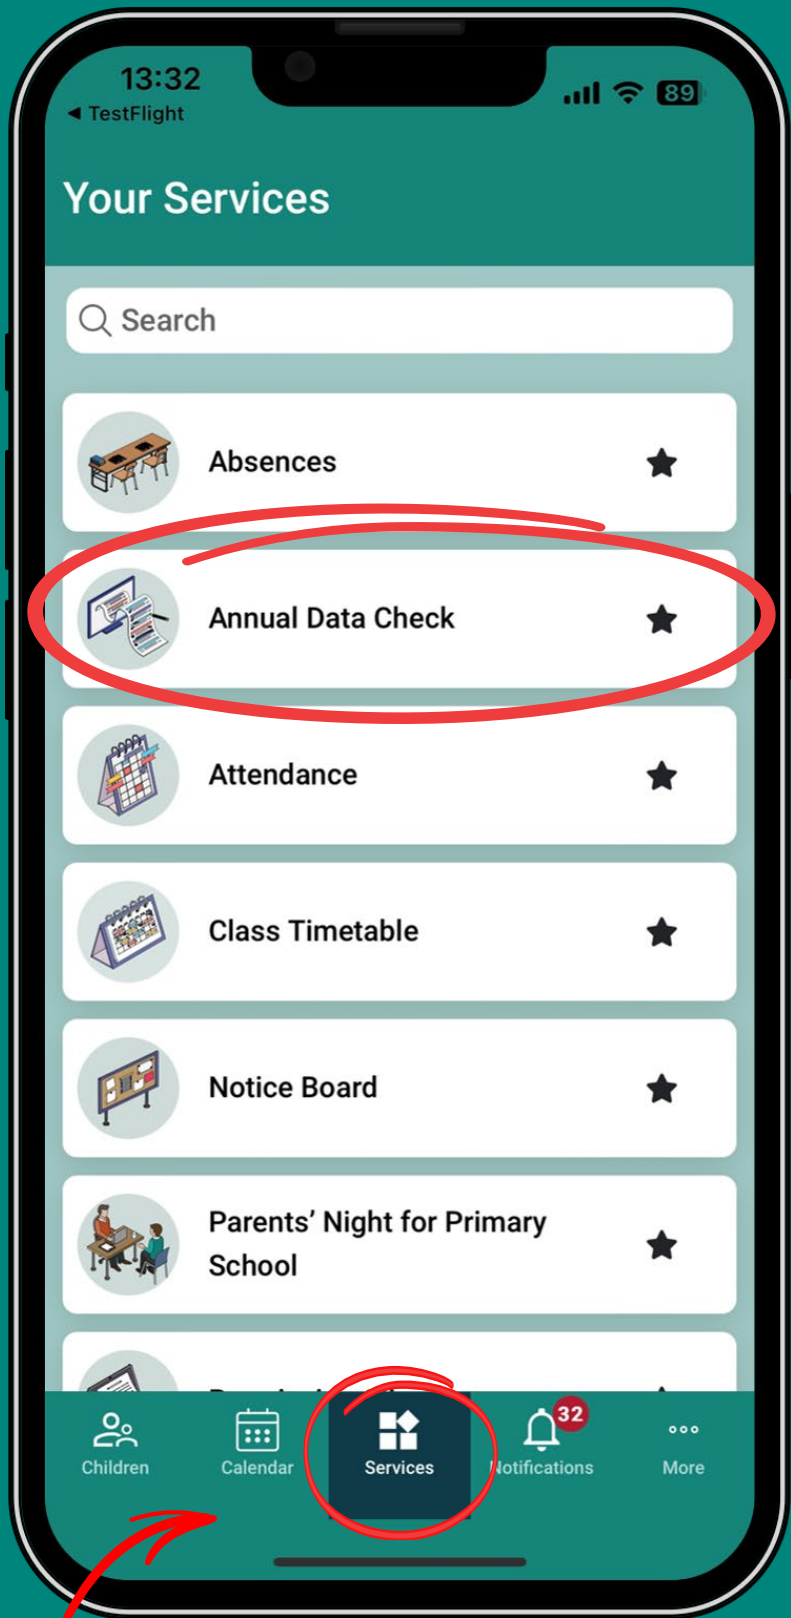

Please note:
only the child's **Main Contact** can complete the Annual Data Check

When submitted, a notification will appear at the top confirming **Annual Data Check submitted**

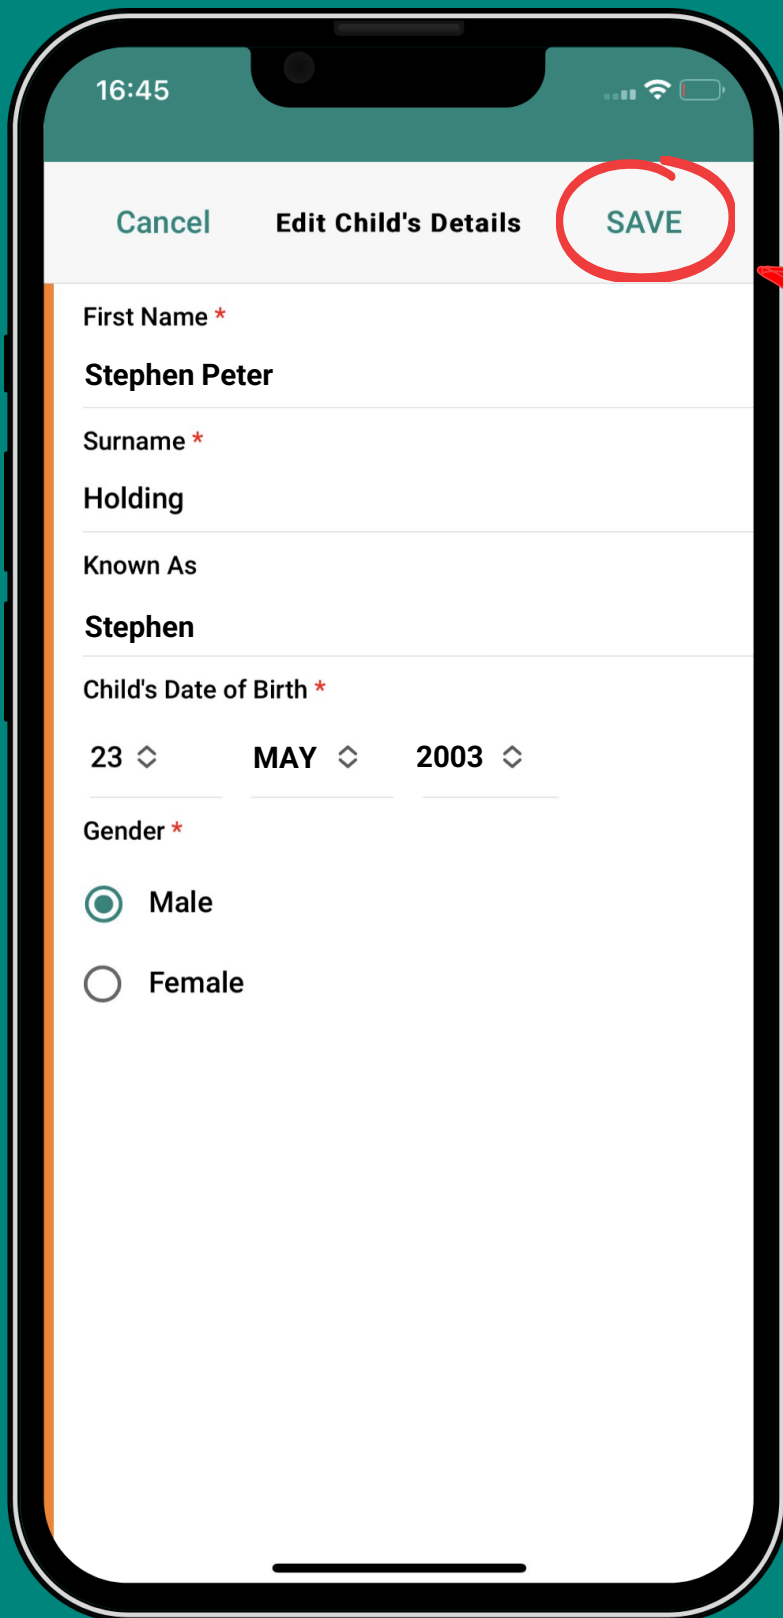

Annual Data Check will now show as **Edit Child Details** which allows you to check and update details at any time throughout the year.

If changes are required in any section...

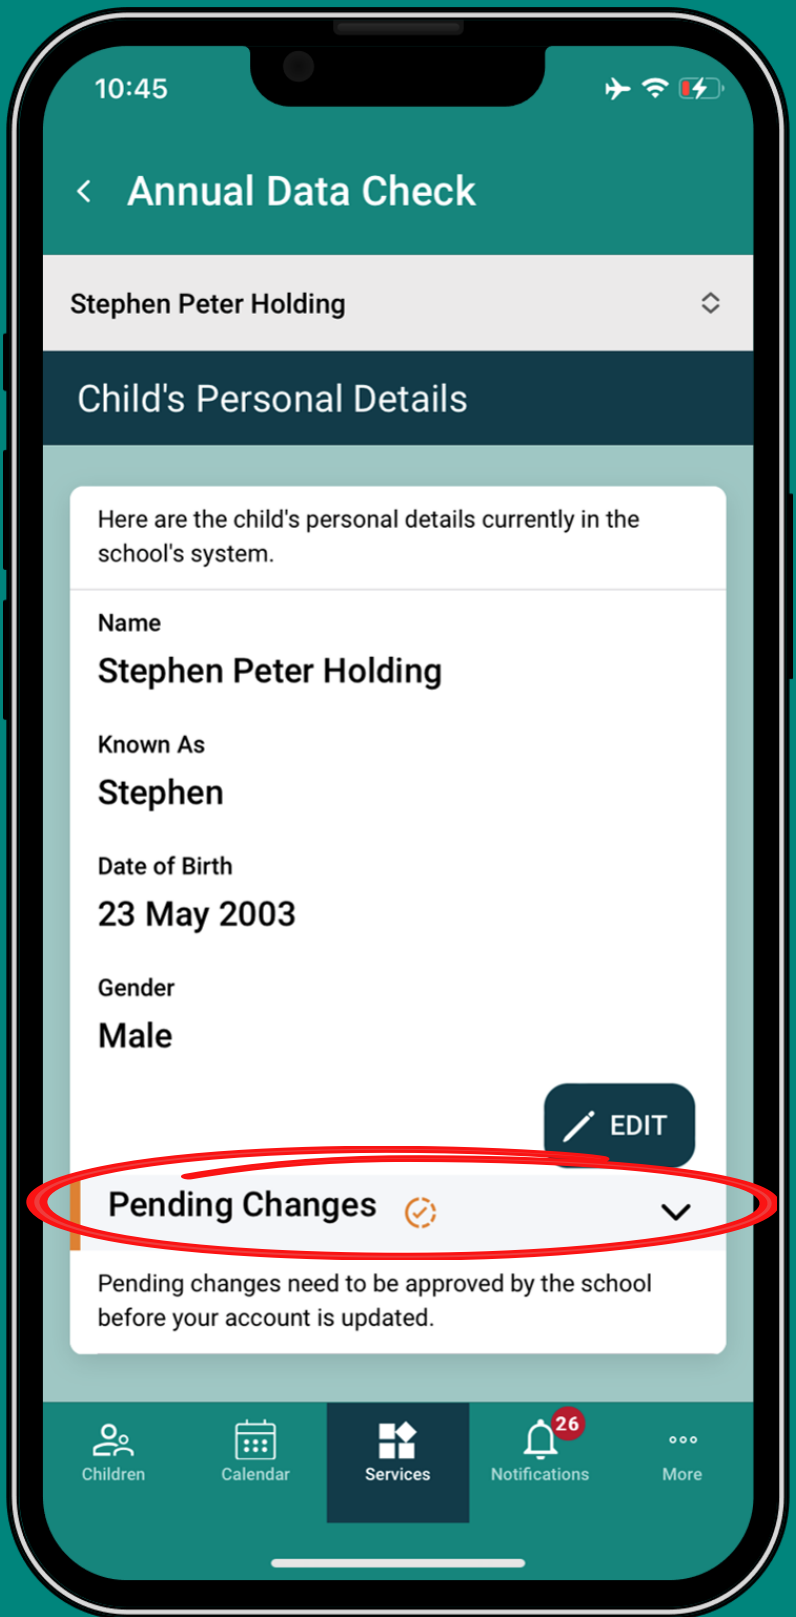

Tap Edit

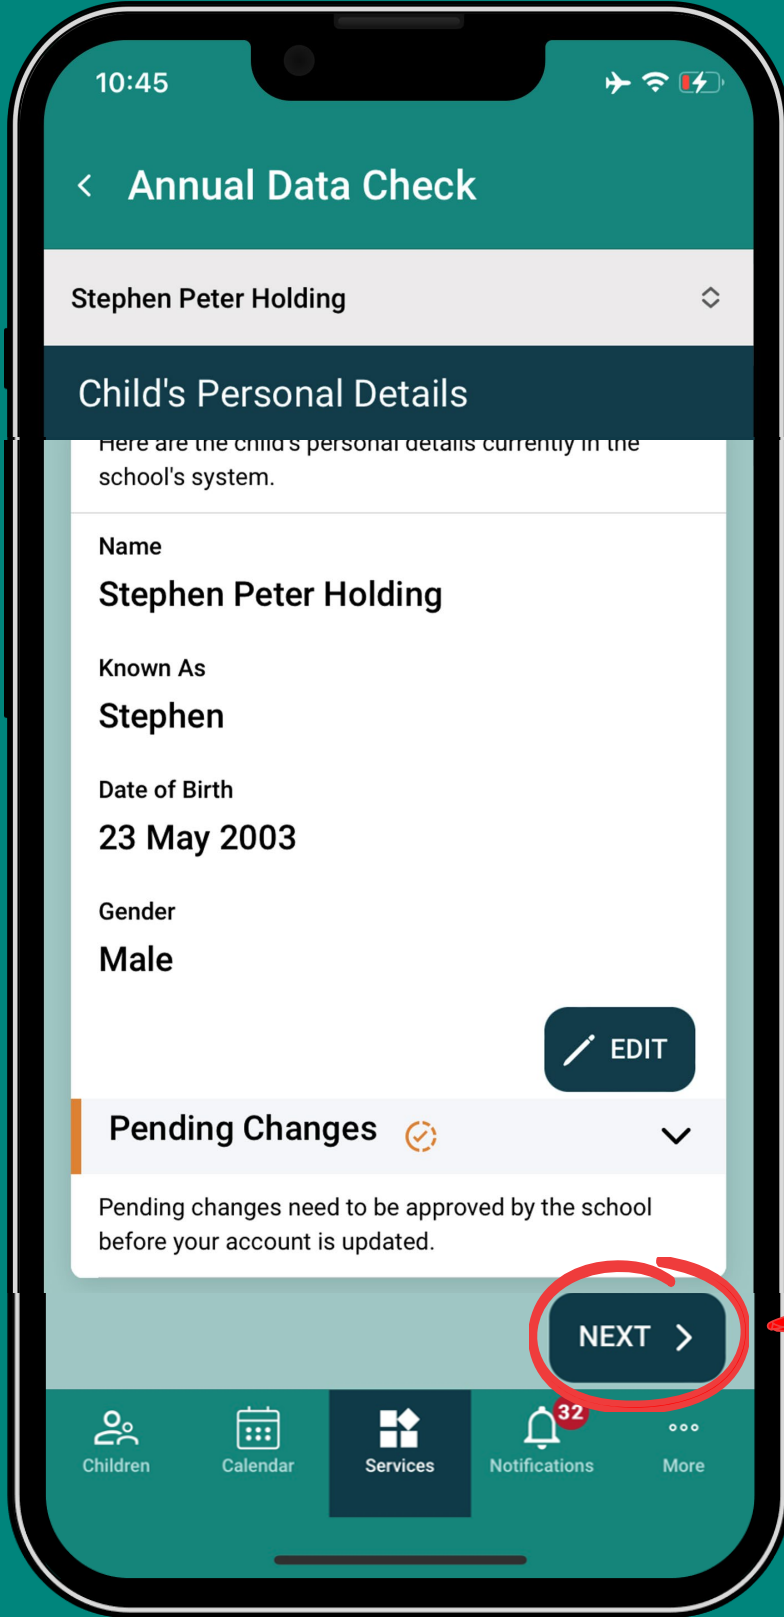

Enter the
new
details and
hit **Save**

Any changes you make will show as **Pending Changes**

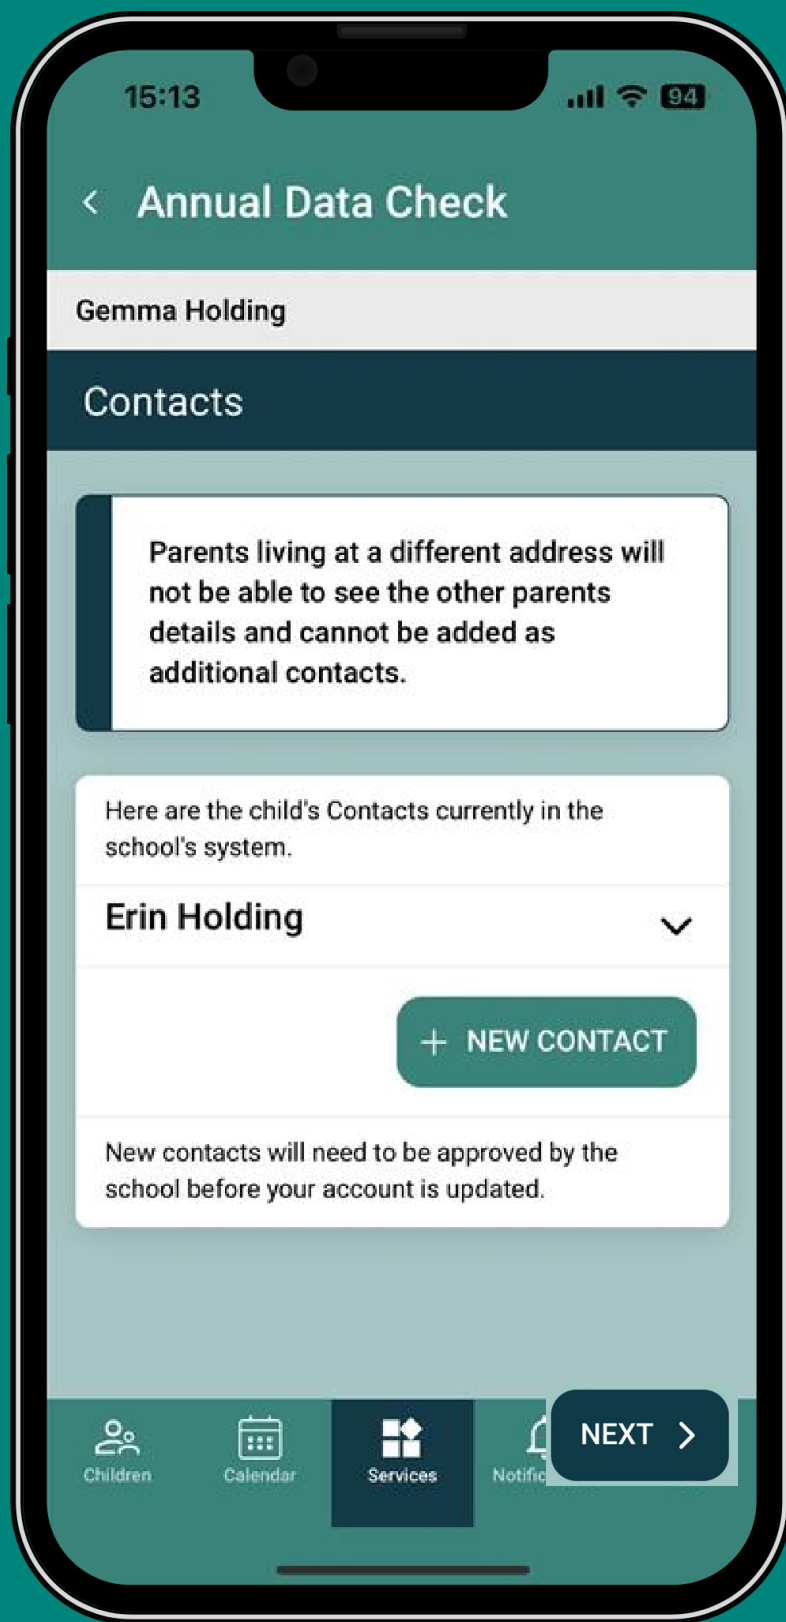

because the school needs to check and approve them.

Tapping **Next** will take you to the next section

Emergency contact details will be shown in the Contacts section.

Note: if Edit/Delete is not visible it means you cannot update their details as they're a parent of a child in the school – contact the school if you need it removed.

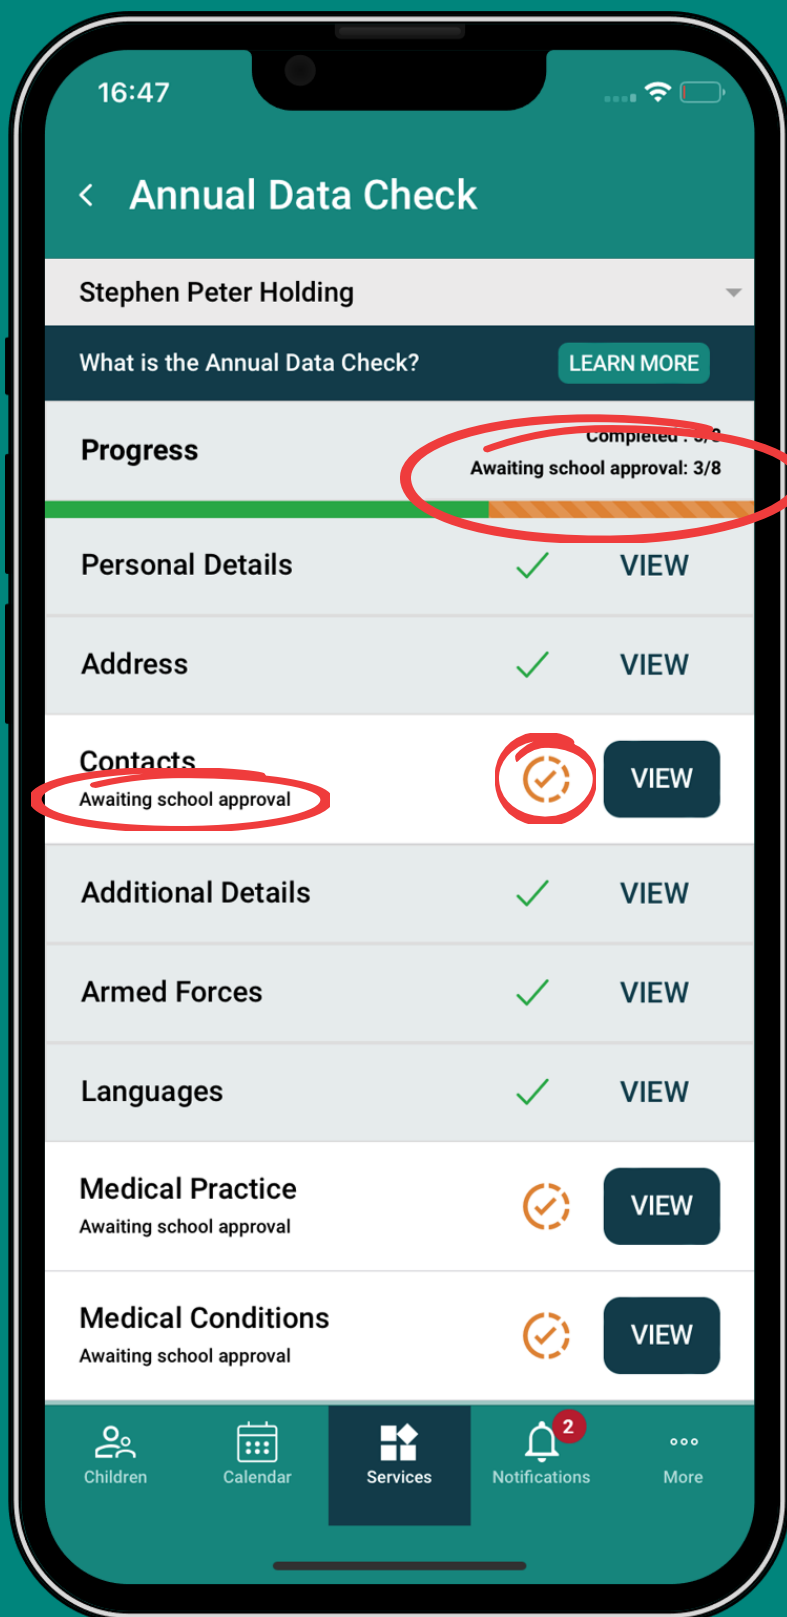

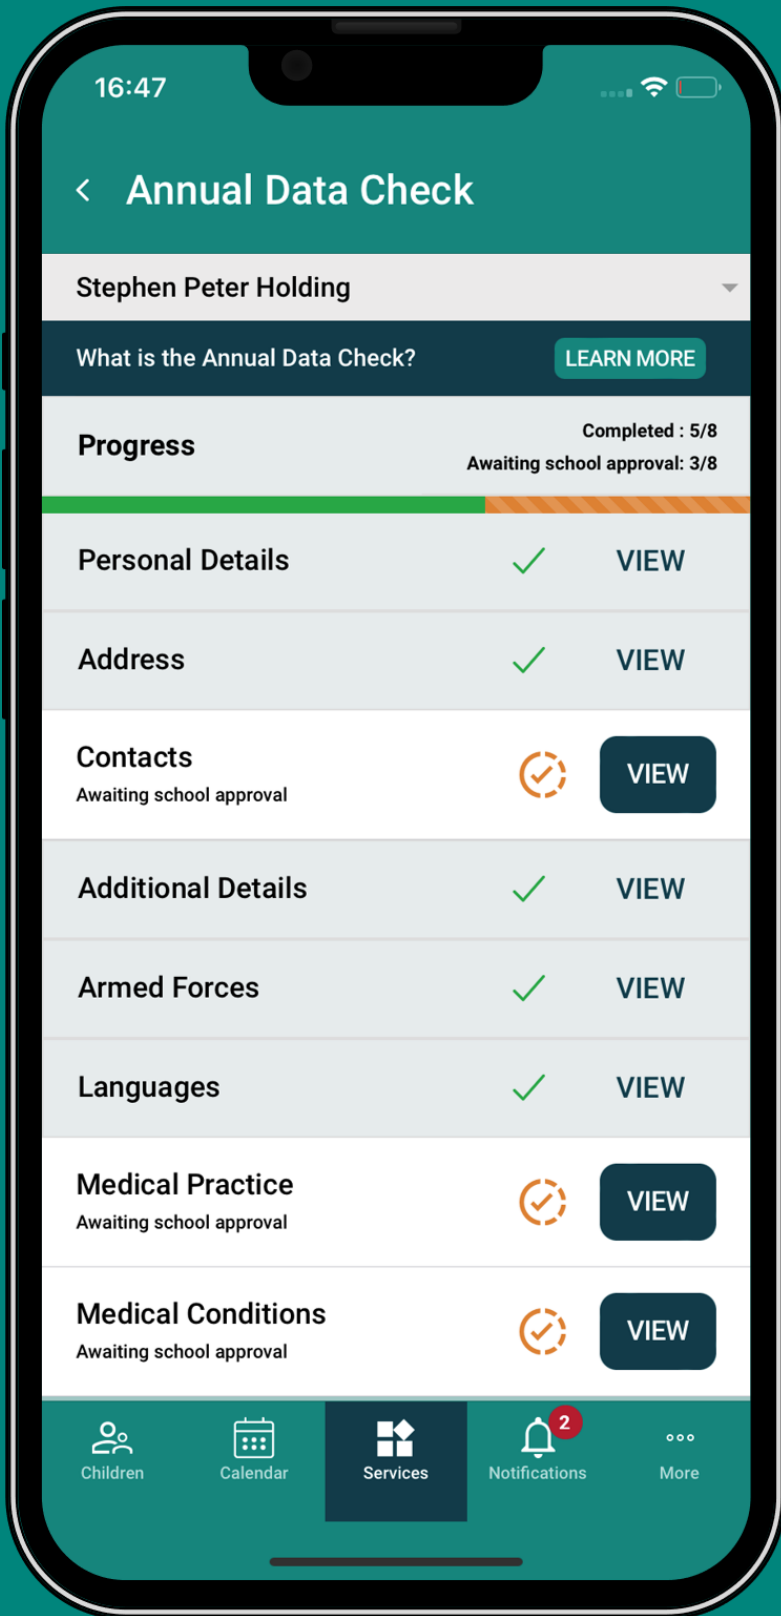

However...

If your child's other parent **doesn't** live at the same address as you, they will **NOT** be shown. (Due to data protection) So you don't need to add them again.

After checking all 8 sections you will be returned to the overview screen.

If changes were made, the progress bar and the sections will show as **Awaiting school approval**

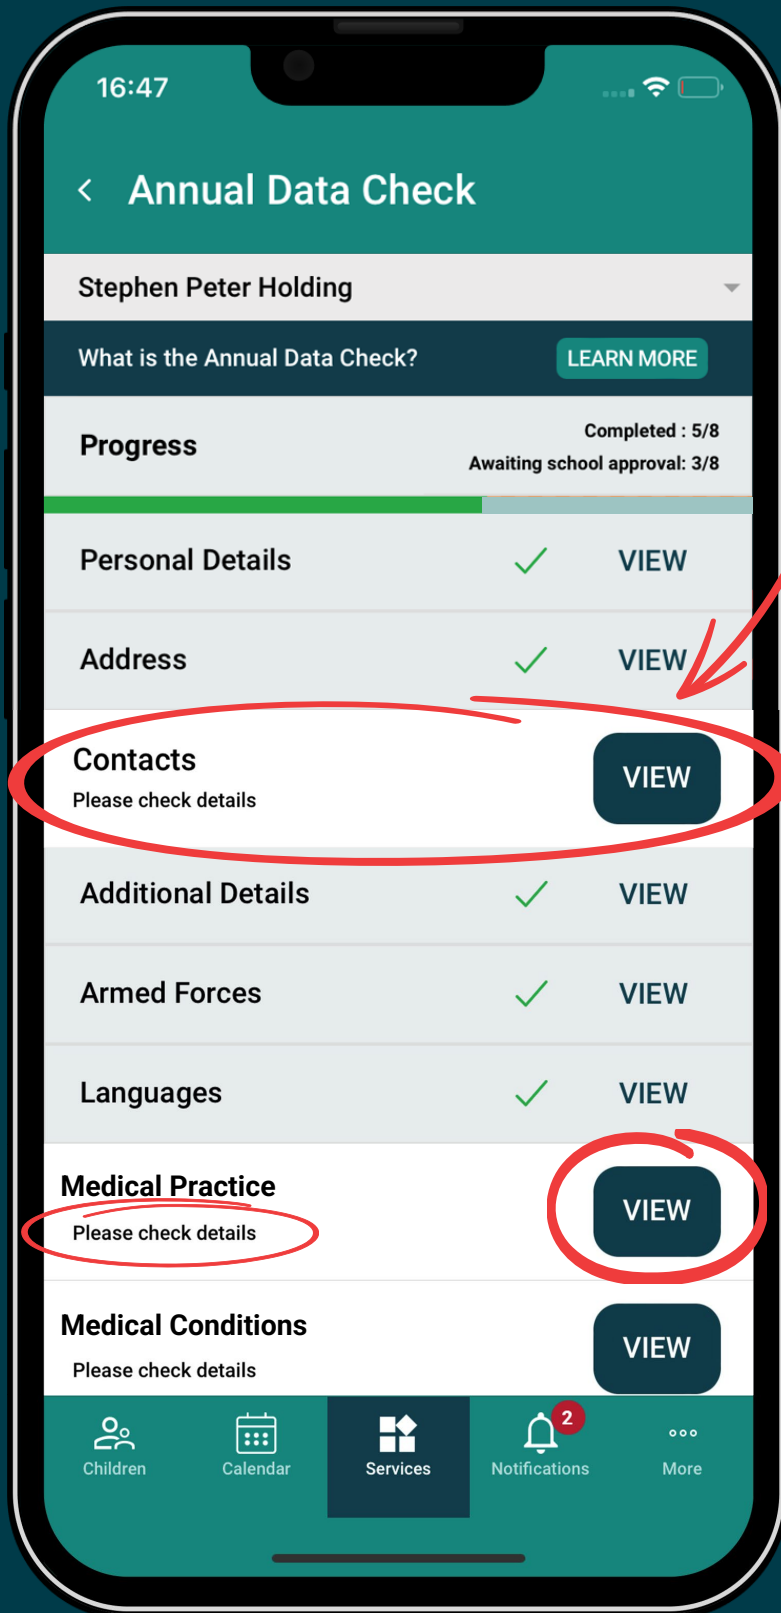

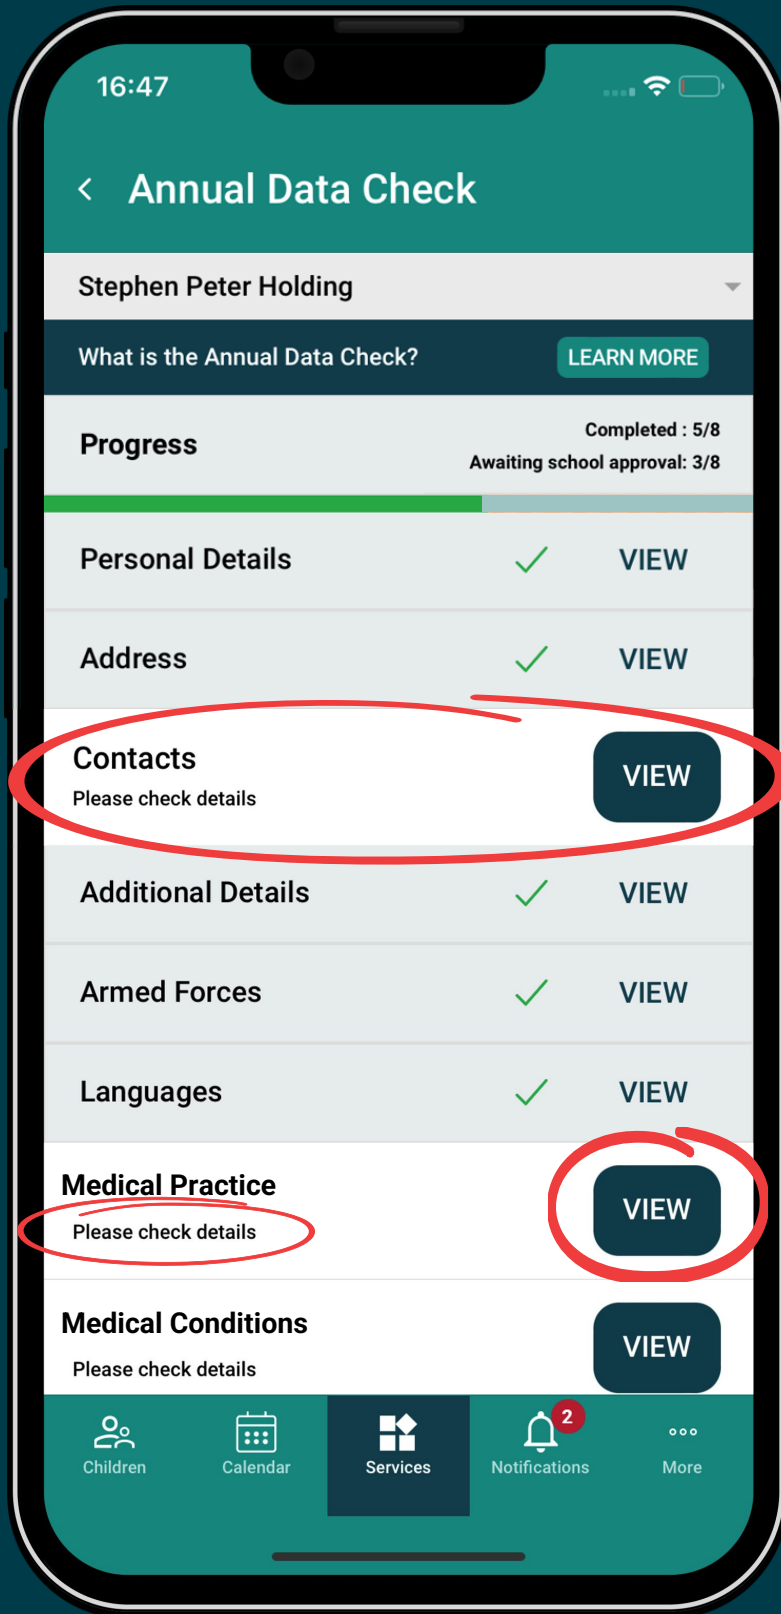

The school needs to check the changes. If approved, the ADC will be submitted automatically.
